

there are school seats with the wide arms we used to balance our books on. After breakfast, we looked at the amusement arcade, the mini-golf, rides for children, and the marina where you can tie up your boat while you have a quick meal. Jack points out that this is a family atmosphere - no alcohol permitted, and there is a security guard on weekends so that parents can feel secure in having their children spend time there.

Trade Winds is to the west of Pine Knoll Shores, and to the east in Atlantic Beach another Pine Knoll Shores resident, JERRY FOUSEK is running the NEW YORK DELICATESSEN. He and his attractive assistant, Marilyn Miller, preside over a mouth-watering selection of delicatessen items such as homemade salads, meats, cheese, Kosher foods, bagels and lox. They serve hot sandwiches - corned beef, brisket, meatball - as well as hero sandwiches. And they carry Kosher pickles. Hours 8 am to 9 pm (this is tentative because we were there when they just opened and had not settled all the details yet.) They handle some grocery items and wine and beer. Jerry lives on Oakleaf Drive in the Golf Course section. Welcome.

NEED HELP with your lawn-mowing or with keeping your yard orderly and weeded? Note this phone number: 726-3466. Ask for Mike Moore. He called us to say that he is interested in doing yard work this summer.

FOR LOT OWNERS who are planning to build: a list of contractors holding privilege licenses in Pine Knoll Shores is available at the Town Hall. There are now 18 contractors on the list.

FROM THE MAYOR: During the five month period from January 21 to June 21 of this year, your "Mayor-turned-Scavenger" picked up from the streets of our Town 980 cans and bottles, about 200 a month. Believe it or not, this was exclusive of Salter Path Road which is such a complete disaster in this respect that a single collector could not make any noticeable difference. For various valid reasons, there appears to be no truly effective way in which the police can prevent littering, but if all of our people would pick up just a little whenever they see the need, it would go a long way toward keeping our Town reasonably clean. Will you help?

LAST MINUTE NEWS - GARBAGE COLLECTION: A temporary contract has been awarded for collections to be made MONDAYS AND THURSDAYS. Any residents missed should call Town Hall.

JUNGLEGOLF is here, like a setting out of Six Flags Over Somewhere Or Other, full of waterfalls, giant zoo creatures, and palmtrees. And 18 holes of miniature golf nestled in its midst.

We talked with Mr. Al Tirrell, the builder and franchiser of this creatively put together playground on Salter Path Rd. next to the Yuletide Shop; he pointed out the lava rock they brought in from California - it's gray and shimmery and very lightweight which makes it easy to work with. There is sod from Georgia; there are thatch roofs from Florida, and 21 varieties of waterlilies.

Mr. Tirrell says a game of 18 holes could take a player from 15 minutes to 45 minutes (should anyone want to deposit kids there before slipping over to Bogue Banks Country Club for a round of "real golf"), depending on the number of people in line and, of course, the skill of the golf club wielder.

Owners of the course are L. P. La Bruce and A. S. Miles of Myrtle Beach. La Bruce is a nurseryman, Miles is with the Pine Lakes Country Club in Myrtle Beach, originally from New Bern. They have hired David Hoyle as manager and Rochelle Blanchard as assistant manager. Although workmen are still putting on finishing touches, the staff will consist of about four eventually. Mr. Tirrell has been especially pleased with local workmanship and asked us to mention this.

The course is open from 9:00 am until midnight or 1:00 am daily.

The PKS GARDEN CLUB held its monthly meeting June 28 at Newell Haller's. The project chairman Marj Johnson reported that club members have mowed and weeded Mimosa Park, Davis Landing, and the Town Hall flagpole area. These are continuing projects of the club. Newell Haller gave the "did-you-know", telling the members that butterfly weed was used in olden days to cure pleurisy. She also told how to propagate butterfly weed and showed members her propagating boxes. From Haller's, the club went to Harry Hall's to see
