Stephanie Kaplan moved here in October and is renting Irma Brossman's old home at 111 Teak Court.

Stephanie was born in Minneapolis, Minnesota, grew up in Mansfield, Ohio, then moved on to Boston, Massachusetts, where she trained to be an Acupuncturist, Massage Therapist and a Yoga Instructor. She has been practicing for eight years and does teaching of Oriental Medicine at different schools. She is in the process of working up a deal with Carteret Community College for a program. At present, Stephanie is practicing at The Light Within at the Morehead Plaza. Her specialties are arthritis, allergies, back pain and digestive difficulties.

Stephanie lived for three years in St. John, Virgin Islands, where she was the only Acupuncturist on the island. She left the Island just before a hurricane and later found out the place she lived was wiped out. She moved to Chapel Hill, and commuted once a week to Morehead with her practice and clientele. She liked it so much here, having stayed overnight each week at a girlfriend's in Pine Knoll Shores, that she decided to move here.

Stephanie enjoys tennis, biking, walking and yoga. Her favorites are reading, movies and going out to eat.
