

Living with Hip or Knee Pain?

MAKOplasty
Robotic Arm Technology

An innovative, new treatment for hip replacement and knee resurfacing

CARTERET GENERAL HOSPITAL is one of the first medical facilities in the Carolinas to utilize a highly advanced, surgeon-controlled robotic arm in partial knee and total hip replacement procedures. Patients now have a superior alternative to traditional procedures that allows them to regain mobility and a higher quality of life more quickly than ever before.

Our Mission is Your Health

Zip Line

Dick Cumberland is shown here enjoying the new zip-lines that were recently installed behind town hall by the Parks & Recreation Committee. This is just the first phase of our new Seniors Outdoor Recreation Park, and thanks to our town planners, it was a shovel-ready project when funding was available. As more funds become available, the park will eventually be expanded to include bungee jumping, pole-vaulting as well as a walker-friendly canopied walkway. Billy Bogus strikes again!

PUBLIC SAFETY

Citizens are reminded to lock their doors.
