"We feel fortunate that a friend of ours recommended you when we were thinking about buying beach property. Thank you for all you did to help make our real estate purchase go more smoothly. You were respectful, professional and helpful, yet warm and friendly. You were always available and easy to reach when we had questions or needs, and we appreciate that very much. If anyone needs the assistance of a real estate professional in the future, we will do as our friend did and gladly recommend your company."
