

- Consider investing in a password manager. Sites such as LastPass and Dashlane maintain a record of your online accounts and passwords in a digital safe. You can set them up to transfer the passwords to your representative at a specific event, such as your death or incapacity.

**How can you ensure that fiduciaries and family members have access to your assets?**

- Ask your attorney about inserting provisions into your will that grant your executor the authority to access your non-financial digital assets and accounts.
- Talk to your attorney about adding language to grant your power-of-attorney agent authority to act on your behalf with your digital accounts and assets.
- If you have assets in a trust, ask your attorney about the possibility of amending the trust agreement with language that will allow the trustee access to digital assets and accounts.
- Check online service providers' policies on death or disability. Each provider has its own access-authorization tools, and the terms vary, so be sure you understand who can and can't access information. If the provider allows access to your executor, trustee, or power-of-attorney agent, inform these individuals where important information is stored.

One final note: Be careful if you include provisions covering digital assets in your estate planning documents and complete a provider's access-authorization tool. The provisions in the documents should match the information you give in the provider's access-authorization tool. If they don't, the provider likely will follow the instructions you gave in its access tool and not your estate plan.

## PKSFD Rescue Boat Gets a Safety Check

Earlier in the spring, by proclamation, Pine Knoll Shores Mayor Ken Jones recognized May 20-26 as National Safe Boating week and declared the start of a year-long effort to promote safe boating in the waters around Pine Knoll Shores. In conjunction with this emphasis, Pine Knoll Shores resident and Past District Commander Harold O'Briant of the 20 Carolinas squadrons of the United States Power Squadrons performed a vessel safety check on the Pine Knoll Shores Fire Department's rescue boat. Fire Chief Jason Baker observed the inspection, which ensured that all equipment required by federal and state regulations was on board, in good condition and operable. The department rescue boat passed all aspects of the safety inspection.

Power Squadron members are anxious to provide this important safety inspection to all boaters just for the asking. To arrange for your complimentary vessel safety check, visit [fmsps.org](http://fmsps.org) and click on "Vessel Safety Check Info." This year's motto for the local Fort Macon Sail and Power Squadron is "Save a Life—Get a Vessel Safety Check."
