six of the 26 larger industries.

Douglas Craddock, County Chairman of the U. S. Savings Bond Committee, has appointed Macon P. Miller of Fieldcrest Mills as Industrial Chairman for the canvass which is a part of a nation-wide program. Mr. Miller said an effort would be made to double the number of workers buying bonds.

Representatives of the industries in Rockingham County met at a dinner meeting September 6 at Meadow Greens Country Club to map plans for the campaign. Mr. Miller advised those present that each plant will be given every possible assistance in increasing interest in the Payroll Savings thrift program. He emphasized that plants now having successful Payroll Savings Plan in operation would be asked to extend and increase their present participation.

New Lift Truck

Joseph Hampton, Jr., of the Shipping and Receiving Dept., Blanket Mill, is shown using the new Clark lift truck. The truck has a high and low stacker attachment. It is used for stacking bales of cotton in the warehouse. The new device makes the operation easier and more efficient. It is a part of a general program to improve materials handling at all of the plants.

The Blanket Mill has a similar truck with a scoop attachment, used for handling coal at the boiler plant. Also on order for the Blanket Mill is a lift truck, to be used for wool storage.

The Towel Mill has just received a lift truck for handling cotton. The Karastan Mill is using one of the trucks for loading the heavy wooden cases of roll goods into railroad cars and truck trailers. A lift truck is on order for handling coal at Karastan.

Council Anniversary

discontinued in the Standards Department.

William R. Kiser was appointed supervisor of Methods and Standards and directs the activities of the time study engineers in all mills. He reports to Wesley Suit, assistant director of standards.

F. M. Holmes, formerly director of the Wage Bureau, was transferred to Fieldale, Va., as head of Methods and Standards for the Towel and Hosiery mills, reporting to Mr. Kiser.

NOW IS THE TIME

"I'll only leave it here a second." Do you ever say that as you put a package on a stairway—or lay a sharp tool on the floor?

Then, if you are called away, the hazard may be forgotten. It's a good way to prepare a "booby trap" for some one.

With safety measures, the best slogan is, "Do it now!"

Draper Soldier

James M. Nelson, whose father, Jim Nelson, is employed in the Sheeting Spinning is now stationed at Fort Belvoir, Virginia.
