Savings Bonds Will Help You Find Security

Financial security!

That is a rather trite expression. But trite or not, how better can you express the thing that most of us are working toward?

After years of toil, and when we reach the age when our bodies and minds are a little tired of the every-day job of making a living, we want to take a rest. In many cases we are at least partly prepared for that time through pensions and Social Security. But there is something else we can do to be assured that we have enough not only to live on but to do those little extra things we have always wanted to do.

The "something else" is systematic savings! You may say that it is very difficult to save these days because of high prices. Yet many millions of people are able to do so. There is a trick to it. The trick is "regularity." You don't have to save a large amount. Save a small amount—and watch the total accumulate! Once you get in the habit, it's easy to continue.

All you do is determine how much you want to save each week or month, see your supervisor and sign a form authorizing the payroll department to deduct the money. Then you sit back and let them deliver U. S. Savings Bonds to you as they are paid up.

★ ALL-WEATHER QUALITY

"It's what you do when things get tough that counts most." That is a real test of a person—and of a company.

Take quality, for example. It's one thing to maintain high quality standards when all is going well. It's a lot harder to do so when costs are high and things go wrong. Then the temptation is strong to cut down standards of quality.

But the man or the company whose reputation for quality workmanship stands up through "thick and thin," wins friends who are likely to stick through "thick and thin."

Phi Psi Officials Are Guests Of Fieldcrest Mills

Faculty advisers and general officers for Phi Psi, national textile fraternity, were guests of Fieldcrest Mills September 7-8, when the group held their annual meeting. The visitors held their sessions at the Fieldcrest Lodge and made tours of several of our plants and staff departments. They attended a luncheon with the Fieldcrest management group at Meadow Greens Country Club Friday, September 8.

GIRLS' CLUB NEWS

The Tri-Cities first cooperative play school opens at the Girls' Club Monday, October 30. Children from three to six years of age will meet from 9:00 a. m. until 11:45 a. m. five days each week. Purpose of the play school is to provide an opportunity for children of pre-school age to develop proper attitudes through supervised play.

The children of all members of the Girls' Club will be eligible to attend. The estimated cost will be \$7.50 per month for each child. This fee will cover operating expenses such as for teacher, refreshments, and various supplies. Spray Civic Association is furnishing the clubhouse, heat, water, lights and necessary equipment at no cost to the parents.

Girls' Club members who wish to enroll their children in the play school

may make the proper arrangements by telephoning 214. A schedule has been worked out, whereby the mothers will take turns in assisting the teacher at the play school. This amounts to about three hours for each mother every third week.
