

# Synthetic Fabrics Mill Has 57 Members In 25-Year Club

Of the 811 members of the Fieldcrest Mills, Inc. Twenty-Five Year Club, 57 are associated with the Synthetic Fabrics Mill. Included are one employee with nearly 51 years of service, three who will complete 50 years during 1955 and several persons with more than 40 years' service.

Because the Synthetic Fabrics Mill was inadvertently omitted from the roster of Twenty-Five Year Club members in our last issue we print below the names of members of the club at that mill. Their continuous service through the year 1954, in the case of active employees, and the actual service of retired employees at the time of retirement is shown opposite their names:

Wade Williamson (left), Blanket Mill, and Marshall Meeks, Finishing Mill, are members of the Fieldcrest 25-Year Club and the mere fact that they were in the hospital on the date of the annual picnic did not bother them any. They were determined to be on hand for the annual meeting of the mills' long service group. Their doctor consented to their leaving the hospital to attend provided they went by ambulance and

were accompanied by a nurse.

The courageous 25-year clubbers are shown in the ambulance parked near the stage at Morehead stadium. Nurse accompanying them is Charlottee Bedell, supervisor of nurses at Tri-City hospital, and wife of Jerry Bedell, packaging coordinator at Fieldcrest.
