

Visitors See Rug Carving Operation

Rev. and Mrs. Warrick Aiken (center) are interested observers as Jesse McKinney of the Karastan Office explains the carving operation. Operator in foreground is Viva Turner, while other carver, Kate Coleman, is partially shown in left background.

The Rev. Mr. Aiken of Tunica, Miss-

issippi, was in the Tri-Cities to conduct a preaching mission at St. Luke's Episcopal Church in Spray.

Now rector of Epiphany Church in Tunica, he was for two years dean of men at the Bible Institute of Philadelphia. Both he and his father have parishes in the Diocese of Mississippi.

Jamison Visits

E. S. Jamison, president of James Jamison Company, selling agents for our Fieldcrest La France hosiery, is shown in the accompanying pictures during a recent visit to the Hosiery Mill. Mr. and Mrs. Jamison, of New York, were guests in the home of Mr. and Mrs. E. H. Goode, at Fieldale, for several days.

At top, Mr. Jamison (extreme right) and group visit with Dona Moore (extreme left), folder and bander in the Finishing Dept. Others in picture, left to right, are Mr. Goode, manager of the Hosiery Mill; Mrs. Jamison and Mrs. Goode.

In another section of the Finishing Dept. (below) Mr. Jamison chats with, left to right, Lillian Walker, Opal Goode and Elizabeth Hall.

Fieldcrest  MILL WHISTLE

Issued Every Other Monday For Employees and Friends of Fieldcrest Mills, Inc., Spray, North Carolina
Copyright, 1954, Fieldcrest Mills, Inc.

Vol. XIII Monday, Nov. 22, 1954 No. 10

Call unto Me and I will answer thee, and show thee great and mighty things which thou knowest not.

—JEREMIAH 33:3

Man Against Machine

Man is still the world's most wonderful machine. Want proof? Then look at these figures some statistician has compiled:

In 70 years of life, a human being eats 1,400 times his own body weight, over 100 tons of food, and he spends five full years putting food in his mouth. If his weight is average, every day his heart beats 103,680 times, his blood travels 168,000,000 miles, he breathes 23,040 times, he inhales 438 cubic feet of air, gives off 85 degrees F. of heat and moves 750 major muscles. The average person blinks 25 times a minute and each blink lasts one-fifth of a second. Thus if he averages 40 miles an hour on a ten hour motor trip, he drives 25 miles with his eyes shut. This body can take a lot of punishment and still function. A man can get along without his gall bladder, spleen, appendix, and bladder. He can give up one kidney, two quarts of blood, a piece of his brain, all of his teeth and live.

And just one traffic accident can stop this wonderful machine cold.
