C-Batry 11th FA. BN
APO 24, San Francisco, Calif.

MAIL BAG

Dear Editor:

I read with much interest the article in the August 15 issue of the Mill Whistle concerning the Acrilan blanket being introduced by Fieldcrest. Did you know that Acrilan is a Chemstrand product? The Chemstrand Corporation has its Acrilan plant in Decatur, Alabama. Attached is a small sample of Acrilan. There has been quite a display in the cafeteria here for the past week with free samples to all!

We still miss you folks a lot—it seems that those who have been to Florida vacationing find that Pensacola is too far West (quite a distance out of the way) to stop by for a visit! Give all my regards—and remember that I really enjoy the news in the Mill Whistle, and certainly appreciate you sending it to me.

Sincerely,
Louise H. Nowlin
The Chemstrand Corporation
Pensacola, Florida

Ed. Note: Mrs. Nowlin, now with Chemstrand, was formerly a secretary in the Electric Blanket Office and a reporter for the Fieldcrest Mill Whistle.

Dear Editor:

I am writing to thank you again for sending me the MILL WHISTLE. I have been receiving it for over two years now and enjoy it very much. I wish to inform the editor and friends concerned that my address has been changed. I would appreciate it very much if I could keep on receiving the MILL WHISTLE. My address is as follows:

Billy L. Gowan AK3-USN
444-81-78
ZX-11, NAS
Key West, Florida

VACATION SNAPSHOT shows Mr. and Mrs. J. J. Dodson on the shore of the Gulf of Mexico at Pensacola, Florida. Mr. Dodson, of the Blanket Weave Room, will soon complete 50 years of service with the Company. Mrs. Dodson (Elice) works in Sheet Sewing Dept. at the Bleachery.
