Tuttle To Participate in NCC Cotton Clinic

Asheville Meeting To Review Developments and Results Of Research In Industry

R. H. Tuttle, director of technical services at Fieldcrest Mills, will take part on the program of the 1960 Cotton Research Clinic at the Grove Park Inn in Asheville, May 31, June 1 and 2.

The meeting is sponsored by the National Cotton Council of America and will be attended by approximately 300 representatives from various sectors of the U. S. cotton industry as well as representatives from several foreign countries.

The purpose of the clinics, which have been held annually over a period of several years, is to review new developments and the results of research in the utilization of cotton.

Mr. Tuttle will be chairman of the Thursday session at which four technical papers are to be presented. He will lead the discussions following each presentation.

He will be introduced by W. Earl Heard, vice president and director of research, West Point Manufacturing Company, West Point, Ga. Mr. Heard is general chairman of the meeting.

R. H. TUTTLE

... To Preside At Clinic ...

Ruth Manley, left, and Earsley Odell, both of the Packing Department, enjoy barbecue served in mill to Central Warehouse employees as an award for safe work. More pictures appear on pages four and five.

Central Warehouse Given Safety Barbecue

Employees of the Central Warehouse have worked over a million and a quarter man-hours without a disabling injury. The last lost-time accident occurred September 27, 1956—over 3½ years ago.

As an award from the Company for having operated all of 1959 without any lost time due to injury, the employees were given a barbecue dinner in the mill Wednesday, May 11. The barbecue, "hush puppies," slaw and cold drinks were served to all employees at their noon lunch period.

In recognition of their perfect record during 1959, the employees of the Central Warehouse are to receive an Award of Merit from the National Safety Council. The award is to be presented later.

John S. Eggleston, superintendent of Central Warehouse, in commenting on the mill's safety record said: "Safety has an important place in our operations at Central Warehouse. While records, awards and barbecues are fine and we enjoy them, our real objective is to prevent suffering and lost time resulting from injuries.

"I want to congratulate the employees

of the Central Warehouse for their outstanding performance in safety work and to thank them for their interest and cooperation in helping to prevent injuries. We hope to add many more man-hours to our present record."

There were indications that interest in safety remains high at Central Warehouse with emphasis being placed on the observance of all safety rules, the reporting and prompt correction of unsafe conditions and the elimination of unsafe acts on the part of individuals.

Credit Union To Pay Another 4% Dividend

A 4% per annum dividend for members of the Fieldcrest Mills Credit Union was voted by the Credit Union's board of directors at their regular monthly meeting May 20. The dividends will be figured on the average monthly balances and credited to each member's share account as of June 30, 1960.

The Credit Union, an all-employee activity at Fieldcrest Mills, has paid a 4% per annum dividend on savings each six months since the Credit Union was organized in June, 1958.
