

# At DTC Drawings For Vacations With Pay

Names are drawn for recipients of one-week paid vacations among employees who gave \$50 or more to Project DTC campaign

Drawings for one-week vacations with pay in connection with the Project DTC fund campaign were conducted in the Conference Room in the General Offices building Monday afternoon, June 18.

Fieldcrest gave the vacations in order to encourage competition in the campaign among the various mills and departments. All employees who pledged \$50 or more to the fund were included in the drawings.

Under the awards plan, separate drawings were held among the "Pat-

rons" (those who gave \$50 or more) at each mill, among the foremen, assistant foremen, clerical and specials.

Above, Millie Earles hands ticket to Dr. William McGehee who conducted the drawings. Looking on, from left, are Paul O'Brien, Myrtle Shropshire, Beatrice Gravley, Louise Cooke, Dewey Burroughs, Bonnie Hailey, Annie Biggs and Percy Wilson.

Winners of the one-week vacations with pay are listed in the adjoining column, printed in bold-face type.

## Many Karastan Units Had 100% Participation In Fund Campaign

Employees of the Karastan Mill were outstanding in their support of Project DTC. The mill won the bronze plaque as the mill having the largest average contribution per person. An important factor in the successful campaign at Karastan were the many departments in which 100% of the employees participated in the campaign.

The picture above shows employees representing the various Karastan units in which 100% of the employees contributed.
