the North Carolina Industrial Commission, will introduce the program. Carlyle Nance, Jr., chairman of the council, will preside.

All Fieldcrest employees and the general public are cordially invited to the program and Fieldcrest supervisors are especially urged to attend.

## **Provide New Courses**

The Industrial Education Center will offer two courses in the next quarter to the newest group of students enrolled in the textile technology curriculum.

A course in economic history will be taught on Tuesdays from 6:30 to 8:30 p. m., beginning September 17. The instructor is to be announced within the next week.

A chemistry course taught by Wayne Lawson, of the Fieldcrest Research and Quality Control Department, will be given from 7:00 to 9:00 p. m. on Wednesdays, beginning September 18.

These courses are intended primarily for students already enrolled in the textile technology curriculum now in its third quarter.

Other enrollees will be admitted for special individual courses if they meet the entrance requirements. The general requirement is high school graduation. The chemistry course also has algebra as a prerequisite.

It was announced, also, that the first group to enroll in the textile technology curriculum, now in its eighth quarter, is taking a course in yarn manufacturing. This course, which began September 3, is taught by Gene Inman, of the Blanket Mill. Classes meet on Tuesdays and Thursday from 6:30 to 9:00 p. m.

## **Blood Donors Get 'One Gallon' Pins**

Left to right, Haven Newton, Thomas Meeks, James Fair and Kenneth Slaughter.

Three local men — including two Fieldcresters — have donated eight or more pints of blood in the Tri-City Blood Program and have received certificates and pins signifying member-ship in the "Gallon Club."

In a brief ceremony at the Fieldcrest General Offices recently, Haven H. Newton, Bloodmobile chairman, presented the awards to Thomas Meeks and Kenneth Slaughter, both of the

Finishing Mill; and to James Fair, of Fair Funeral Home.

Mr. Newton announced that the next visit by the Bloodmobile will be on Thursday, October 10, when the unit will be stationed at St. Luke's Episcopal Church (Rock Church) in Spray. He said 150 pints are needed on that visit to help blood collections catch up with the actual usage of blood for Tri-City patients.
