

Hershel Bilbey shows how accident occurred.

## Safety Shoes Save Fixer's Foot

The first day he wore his new safety shoes, Hershel Bilbey was saved from a serious foot injury when a jack fell on his foot.

Mr. Bilbey is a fixer in the Plant Service Department at the Foremost Screen Print Plant at Stokesdale. He was repairing a lift truck which was up on a jack. The jack loosened and fell on his foot.

His new shoes were scuffed but the steel cap in the toe kept his foot from being injured. He said he was very thankful that he was wearing safety shoes and that no one has to convince him of their value in preventing foot injuries.

The Fieldcrest Safety Department has recommended Mr. Bilbey for membership in the Golden Shoe Club which recognizes industrial employees who

have avoided foot injuries by wearing safety shoes.

He will receive a membership certificate and an attractive insignia.

## New Executive Appointments Are Announced

(Continued from Page One)  
ufacturing in January, 1972.

He graduated from North Carolina State University with a B.S. degree in textile engineering and joined Fieldcrest Mills as a quality control engineer in 1961.

Mr. Wiggonton is a graduate of Auburn University with a B.S. degree in business administration and had a long career with Cone Mills and Deering-Milliken, Inc.

He served in various staff functions at Cone's Dwight Division in Gadsen, Ala., and for 10 years was at Cone's Pineville, N. C. plant where he served as assistant superintendent and assistant plant manager.

He joined Deering-Milliken in 1966 as a staff assistant to the director of

manufacturing for three plants and then became manager of Pacolet Yarns at Pacolet, S. C. Immediately before joining Fieldcrest in 1971, he was with Pacolet Mills, Division of Deering-Milliken, Inc., Spartanburg, S. C., where he was yarn manufacturing superintendent, including responsibility for the cloth room and warehouse.

Mr. Mills graduated from Clemson University with a B.S. degree in textile management and has a background of experience in the manufacture of sheeting and apparel fabrics.

Starting with Springs as a management trainee he advanced through a number of responsible supervisory and managerial positions. He was associated with several of the Springs plants and most recently was at Lancaster, S. C.

## Textile Careers

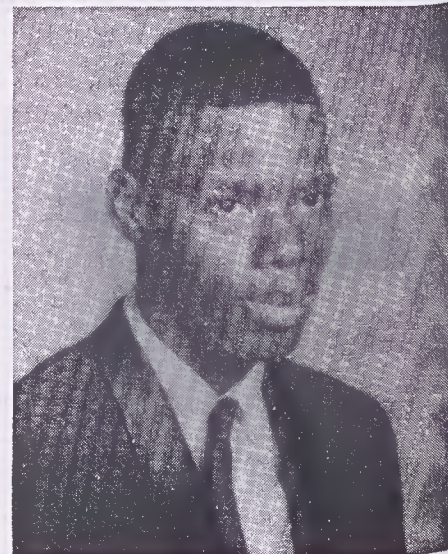

(Continued from Page One)

reers month is: "In Textiles a Career Comes with Every Job." The campaign will emphasize that someone willing to work and learn can always find a good job in the textile industry—that there are jobs available to people with all levels of education and with or without prior textile experience.

Most textile firms, including Fieldcrest, are anxious to find new employees and Textile Careers Month provides a means of informing the public that the textile industry is modern, progressive and a good place to work.

Textile Careers Month is being sponsored by the various textile companies with the cooperation of the American Textile Manufacturers Institute. In addition to the special month, April 1-7 is being observed as National Textile Week, sponsored by Phi Psi, the national professional textile fraternity.

## Named To Dean's List

Ronald Broadnax, son of Mr. and Mrs. Roy Broadnax, has been named to the Dean's List for the fall semester at A & T State University.

A Fieldcrest Scholarship recipient, Mr. Broadnax is a junior at A & T and is majoring in electrical engineering. He is a 1970 graduate of Morehead High School.

His father is a filling controller in the Quilling Department at the Bedsread Mill.

## Name Omitted

Thomas V. Dillard, of the Dyeing Department, should have been included in the list of Karastan Rug Mill employees who worked every scheduled day during 1972. The list was published in the last issue of The Mill Whistle.

Mr. Dillard had perfect attendance on the job throughout the year 1972 and the addition of his name makes a total of 69 at Karastan who achieved 100% attendance.
