Fieldcrest since April, 1973. He worked as a warper tender at the Blanket Greige Mill before becoming a supervisory trainee at that mill in September, 1973.

Perfect Attendance Employees Honored At Blanket Greige Mill

One employee with 12 years of perfect attendance and five others with five years and up have been honored by the management of the Blanket Greige Mill. Awards were presented to members of the group as a token of appreciation for their faithfulness and dependability.

Johnnie Barber, of the Cotton Spinning Department, was recognized for an outstanding record of 12 years of perfect on-the-job attendance. Also given special honors were Luther Meadows, Plant Service, eight years; Sanford Odell, Non-Woven, seven years; Virgil

Cochran, Weave Room, seven years; Wallace Warf, Plant Service, six years; and Reuben Millner, Plant Service, five years.

These attendance leaders were among the 53 Blanket Greige Mill employees who worked every scheduled day in 1973. They received congratulations from W. F. Crumley, plant manager, who thanked them for their interest in their work and their dependability.

"Absenteeism is costly to the company and is costly to the employee. We appreciate very much the faithfulness and dependability of the employees

who worked every scheduled day in 1973. Employees work regularly without absences contribute materially to the successful operation of the mill and to their own financial security," Mr. Crumley said.

Listed below are the names of the Blanket Greige employees who had perfect attendance in 1973 or for the indicated number of years:

Flocking — Charles Taylor (7), Joseph Wilson and the Dillard.

Named To New Post

Benny R. Goins has been named a section foreman in the Carding Department at the Draper Sheeting Mill.

Mr. Goins joined Fieldcrest in 1972 as a management trainee. He received an A.S. degree in engineering from Wingate College and graduated from North Carolina State University in 1972 with a B.S. degree in textiles.

Women can drive cars just as well as men can; which, when you come to think of it, isn't such a great achievement.

Ray Grogan demonstrates how he could have received a serious foot injury had he not been wearing safety shoes.

Employee Avoids Injury To Foot

An employee at Foremost Screen Print was recently saved from a serious foot injury by the fact that he was wearing safety shoes.

On January 21, Ray A. Grogan, a print machine fixer No. 2, was putting a pallette on a lift truck. As he was pushing the heavy rack, it hung on the fork of the lift truck and dropped back, hitting the top of Mr. Grogan's foot. The blow peeled back the leather of the safety shoe, but no damage to the foot occurred.

Mr. Grogan has been nominated for membership in the Golden Shoe Club of America, an organization made up of persons who have avoided serious foot injury by wearing safety shoes.
