

Fieldcrest Scholars – Where Are They?

(Continued From Page Three)

Veterans Association Honor Award.

He is now plant chemist at the North Carolina Finishing Company division at Salisbury. His parents are Mr. and Mrs. W. T. Byrd. His father is a retired employee of the North Carolina Finishing Company.

Ronald L. Martin, who also received a Fieldcrest Scholarship in 1965, graduated from the Harris School of Advertising Art in 1969. He is now a promotion and advertising specialist with the Baptist Sunday School Board in Nashville, Tenn. He is the son of Mr. and Mrs. Claude Martin. His father is employed in the Dye Department at the Fieldale Towel Mill.

James E. Gardner, Jr., was a 1966 scholarship winner. He graduated in 1970 from the North Carolina School of the Arts with a bachelor of music degree and in 1972 from Catholic University of America with a master of music degree.

He is the founder, manager and performing member of the Piedmont Brass Quintet which was established in 1973 with a grant from the N.C. School of the Arts Foundation, Inc. His parents are Mr. and Mrs. James E. Gardner. His father is training manager for Fieldcrest Mills, Inc.

James Rodger Finney, also a 1966 scholarship winner, graduated from Virginia Polytechnic Institute and State University in 1970 with a B.S. degree in agricultural education. He received an M.S. degree in agricultural education in 1972.

At present he is a teacher of

vocational agriculture at Laurel Park High School in Henry County, Va. His parents are Mr. and Mrs. James E. Finney. His father is a former employee of the Blanket Greige Mill.

Jan Atkinson Ogburn, another 1966 winner, graduated from the University of North Carolina at Greensboro in 1970 with a B.A. degree in English. She was named to the Dean's List. She is now a teacher at Madison-Mayodan Senior High School. She is the daughter of Maj. and Mrs. W. G. Atkinson. Her mother is employed in the laboratory at the Research building.

Mary Ellen Lay Schumaker received a Fieldcrest Scholarship in 1968 and graduated from the University of North Carolina at Greensboro in 1972 with a B.A. degree in drama and speech. At present she is a staff-appointed technical teaching assistant at the McNutt Center for Instructional media at the University of North Carolina at Greensboro. She is the daughter of Mr. and Mrs. Ralph Lay. Her mother, Louise, is employed in the laboratory at the Draper Sheeting Mill.

Connie Mae Philpott Hylton, a 1969 scholarship winner, graduated from Virginia Polytechnic Institute and State University in 1973 with a B.S. degree in biology with an education option. She is now teaching science at Franklin County Junior High School in Rocky Mount, Va. and is working toward a master's degree in education curriculum and instruction.

In the next issue of The Mill Whistle, the remaining scholarship winners who responded to the questionnaire will be featured.

Still Need To Conserve Energy

(Continued From Page One)

—Repairing leaks to prevent leakage of steam, water, air.

—Installing heat exchangers where practicable to extract heat from waste water.

—Scheduling processes more efficiently to save energy.

Maximizing the burner efficiency of boilers.

“While industries are big users and must make the largest savings, individuals can do a great deal to cut down on the use of electricity in their homes,” Mr. Farrell said.

He suggested the following tips for residential users of electricity:

Cut down on the use of hot water. Hot water heaters use almost four times more energy than any other appliance in the home. Showers use less hot water than tub baths. Those who prefer baths should use less water.

Turn off the television set when it is not being watched. But not for just a few minutes as it requires a power surge to come back on. If buying a new set, look for the solid state type. It uses less power than older tube types.

Use small appliances for cooking when you can. Such appliances as electric fry pans and grills use less electricity.

IN APPRECIATION

I would like to thank those who donated blood November 22 at the Bloodmobile to replace blood given to my husband, Henry Murray Bousman, October 21, at N.C. Baptist Hospital.

Thank you for caring enough to help us in such a nice way. He is at home, recovering from heart surgery and doing fine. We also want to thank you for cards, flowers, and most of all your prayers. This will be a wonderful Thanksgiving for me and my family.

RUBY ANN BOUSMAN

When using the stove, keep the oven door closed. Opening the door drops the temperature between 25 degrees and 50 degrees. Use smaller amounts of water when cooking. It will heat faster.

When using a clothes dryer, which uses large amounts of electricity, dry full loads and clean the lint trap after each use. Also, select the proper temperature setting because not all fabrics need high heat.

Turn off unneeded lights, making use of natural light during the day. Buy smaller wattage bulbs and use fluorescent lighting where feasi-

ble (kitchen, laundry area). It uses less electricity.

Turn thermostats back 1 to 2 degrees or lower during winter and 10 degrees lower in summer. Lower temperatures in homes and offices are actually healthier than warmer ones. Your body rapidly acclimates to the cooler temperature after a short period of adjustment or no discomfort is felt.

If you feel uncomfortable, wear heavier clothing, sweaters and long-sleeved clothing. Remember, it is estimated that each degree below 70 degrees will add five percent to the cost of heating your

Promotions Are Announced

The Karastan Marketing Division has named Edward J. McRae its new Western Sales Manager, it was announced here. Mr. McRae succeeds John S. Eggleston in the post. As recently disclosed, Mr. Eggleston has been promoted to the position of Vice-President for sales for Karastan.

Mr. McRae, who will headquarter at Karastan's San Francisco sales offices, will report to Mr. Eggleston.

It was also announced that James J. Beirne has been named to replace Mr. McRae as salesman for New York City accounts. Mr. Beirne had been Southern Florida territory manager for Karastan.

Robert B. Dyer, formerly Florida sales representative for Laurelcrest Carpets, will move to the Karastan division and take over Mr. Beirne's responsibilities in Florida.

Mr. McRae started with Karastan in 1965 after attending Pace College. Following various sales service positions he was named a territory manager in the Midwest in 1970. In 1971 he was made a commercial carpet specialist servicing key accounts in the New York area. He took over the important New York City sales responsibilities in January of 1972.

Mr. Beirne began his career in the carpet industry with Karastan in 1961 working out of the New York sales head-

EDWARD J. McRae

quarters. He subsequently held sales posts with Al Smith and Aldon Industries before rejoining Karastan in its commercial carpet servicing accounts for the company's Chicago sales office. In January of this year he was named to the Florida sales territory.

Mr. Dyer joined the organization in 1956 in its manufacturing division. He was the marketing division manager and was named to service post in 1967. Following the acquisition of the Laurelcrest division, Mr. Dyer joined Laurelcrest sales staff and was named territory manager for the New York region. In January, 1972, he was assigned the Southern Florida territory for Laurelcrest.
