

For Outstanding Reduction In Waste

Dinner Honors Laurelcrest Yarn Employees

The Laurelcrest Yarn Mill's war on waste continues. The second 10-week promotional program was completed with a 75 percent reduction in waste over the initial 10-week program. Projected on an annual basis, the second 10-week program would result in a waste savings of \$55,575.

"These programs at the Laurelcrest Yarn mill have shown that waste reduction can be contagious," said Luby M. Skinner, plant manager of the Yarn Mill. "Our employees have done an outstanding job and I am very proud of each one of them," he said.

Employees at the Yarn Mill were served a chicken-barbecue dinner in the plant on November 11 in appreciation and recognition of their excellent efforts in the waste reduction program. At that time, drawings were held for area winners in each department which successfully met or exceeded its waste reduction goal during the program. The departments are: Spinning, Twisting, Winding, Reeling, and Plant Service.
