

## Meredith Students Visit Mills

A group of 60 business and home economics students from Meredith College visited Eden on March 26.

The students toured the General Offices, the Fieldcrest Technical Center, and the Karastan Rug Mill. They were welcomed by Dr. L. H. Hance, vice president-research and engineering, before beginning their tour of the General Offices.

Following the tours, the students were guests of the company at a luncheon at Meadow Greens Country Club, followed by a film entitled "The Fieldcrest Decorating Digest," shown by W. P. Groseclose, manager of the Fieldcrest Store. The group also visited the store.

## questions and answers

**Q.** I understand that some people who get social security benefits are expected to file an annual report of earnings. Who are the people who file the report?

**A.** People under 72 who earned over \$2,520 and got one or more monthly social security retirement, survivors, or dependents checks or black lung payments in 1975 must submit an annual report of their earnings to social security by April 15. The report is used to determine if people were paid the correct amount of social security benefits for 1975 and to adjust their monthly social security benefit to their estimated earnings.

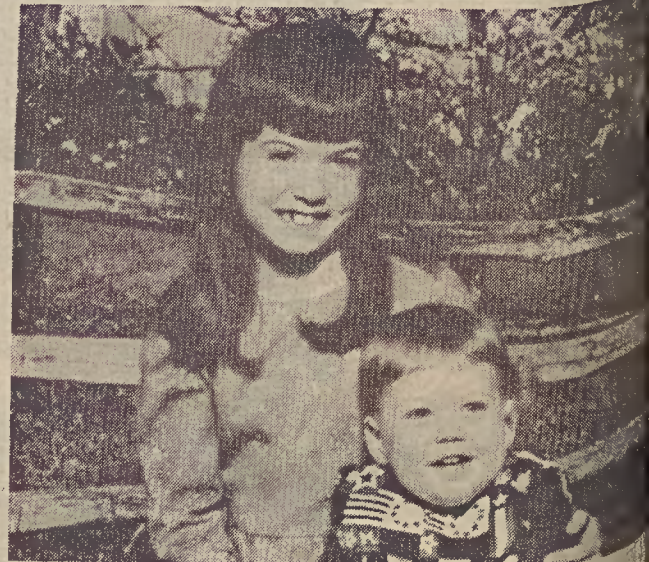

**Q.** My father is in the hospital again as a result of the second stroke in the past several years. Will he have to wait 5 months before he can get social security disability benefits, as he did the first time?

**A.** Not necessarily. Under

some circumstances, who got disability checks can get benefits without a month waiting period if he becomes disabled again and cannot work. Your father should notify a social security representative about his condition as soon as possible. If he's unable to go to a friend or relative can.

**Q.** I read somewhere that one out of every three dollars paid of Medicare insurance claims is caused by use of a wrong claim number. Why is this?

**A.** The claim number identifies a claim for Medicare payment on bills for medical services. If you put a wrong number—or don't enter a number—on a "Request for Medicare Payment" form, a search for your correct number is necessary and this can delay payment. The claim number should also be written on a separate bill exactly as it appears on your Medicare insurance card.
