

Phenix City Plant Company

Fieldcrest's Phenix City Plant, Phenix City, Ala., is one of the most modern and efficient facilities of its type in the industry. It has been in full operation since November, 1974, and is the company's newest manufacturing location.

The 250,000 square foot facility houses the cutting and sewing, customer service, and warehousing and shipping

operations for the Columbus Towel Mill, Columbus, Ga. Constructed at a cost of \$5 million, the Phenix City Plant is located on a 40-acre tract five miles from the Columbus Towel Mill on the Chatahoochee River.

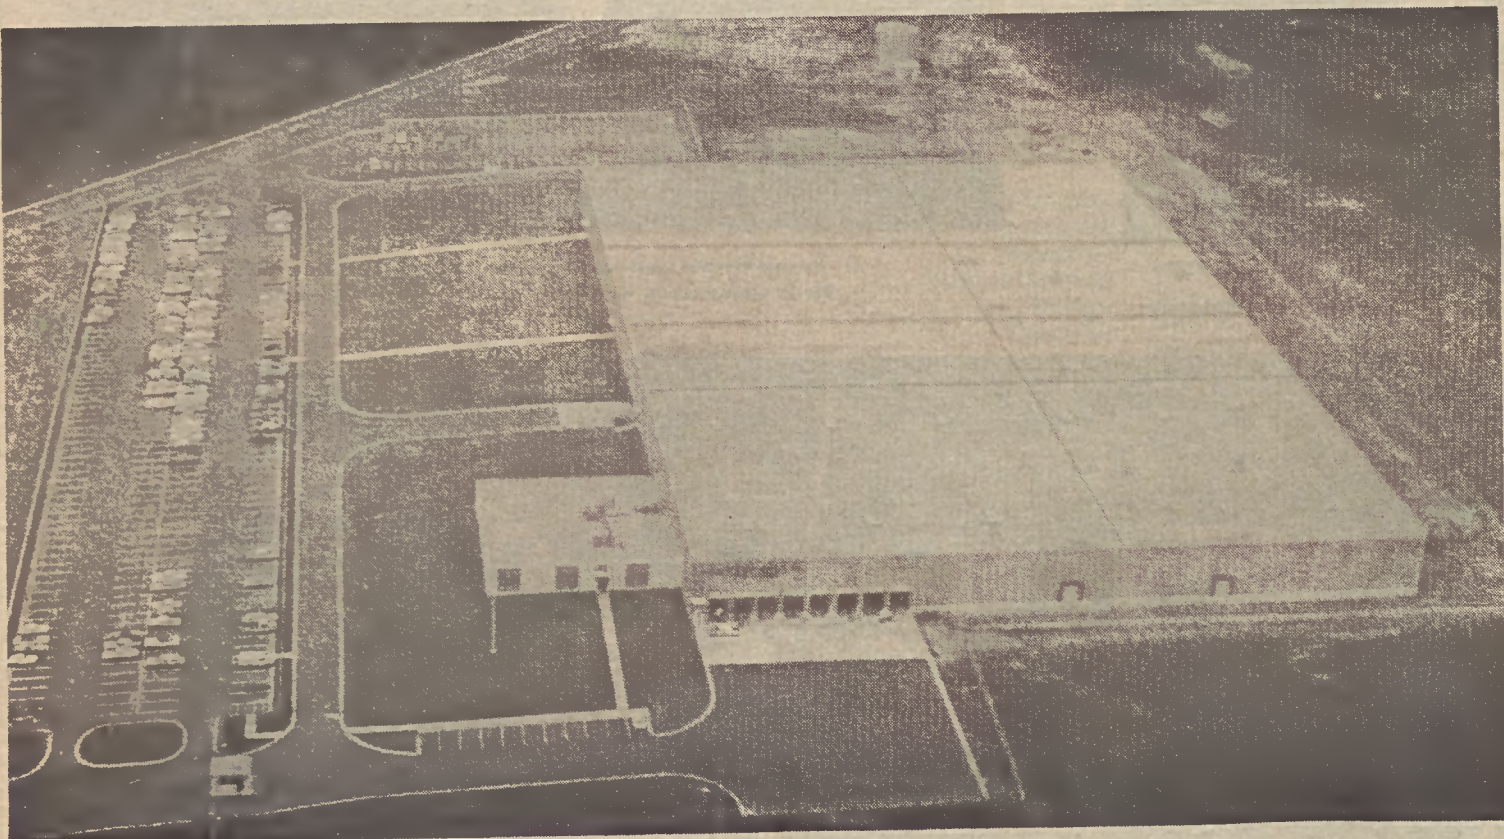

In addition to up-to-date cutting and sewing equipment, the plant's Customer Service Department contains some of the newest and most advanced

Ollie Smith, splitter operator

Hazel Griffin, final inspector

Phenix City Plant is 250,000 square-foot facility
