The beginning of a new year is a good time to go over to your company records to make sure that they are up-to-date.

NAME CHANGE — Did you give your supervisor your new name if you have married since you came to work for Fieldcrest?

Can Anyone Do What You Do Better Than You?

Probably not. All things considered you do what you do pretty doggone well. After all, no one has taken your job. And you're eating regularly.

But have you ever considered what doing your job just a little better might mean?

Money. Cold hard coin of the realm.

If each of us cared just a smidge more about what we do for a living, we could actually turn that inflationary spiral around.

Better products, better service and better management would mean savings for all of us. Savings of much of the cash and frayed nerves it's costing us now for repairs and inefficiency.

By taking more pride in our work we'll see America regain its full strength in the competitive world trade arena. With the balance of payments swinging our way we'll all be better off economically.

So you see — the only person who can really do what you do any better is you.
