## Greenville Employees Enjoy Updated Canteen Facilities

In an effort to give employees better selection and keep up-to-date with equipment, the Canteen Services Department under the management of Bobby Brooks recently renovated the canteen at Greenville Spinning Mill.

Replacing previous equipment with all new vending machines this summer, the employees now enjoy the service of a cold sandwich machine, two glass front snack marts, a dairy mart dispensing coffee, juices and milk, a new coffee machine and a modern service bar with microwave oven. Even the room containing the new equipment has gotten a new look.
