Victor Emerson Produces This New Phonograph

The Most Startling News in the Phonograph World was the Announcement that Victor Emerson, the Wizard of the Phonograph had left the Columbia People, and had organized a MILLION DOLLAR CORPORATION to make and market his New Invention, the Emerson Phonograph. Not A Toy. Not an Experiment, but a full-sized Phonograph, surpassing many a \$100 and \$200 machines in scope, WHICH YOU CAN BUY AT THE SENSATIONAL PRICE MENTIONED BELOW, which is less than some of the records of other machines cost alone.

The Gastonian for One Year and This Wonderful Machine for \$4.98

What This Marvel Will Do
It has a special motor that will play a big 12-inch record at one speed, or two small records. It will play fast or slow, as you wish. It will play all Victor and Columbia records perfectly. Then without additional attachment it will play Pathe records. Simply turn the reproducer. Finally it will play the Universal cut records produced by Victor Emerson which offer the greatest musical pleasures, and the highest priced artists, not at \$3.00, but at 10c and 25c.

DO YOU LOVE FINE MUSICS?
Here's a phonograph that will entertain you and your visitors with the newest and best music. It will play the songs that stir the heart. It will play the dance music that can't be resisted. It will educate and entertain. It will do you more good, and give you a greater blessing than anything else in the household. No matter what its cost.

Do You Take Pride in Home?
No home is complete nowadays without a good phonograph and a library of records for all occasions. Why envy your neighbors any longer? Why yawn and make away your evenings when you can have hours and hours of solid fun in this insignificant cost. When all that stands between you and better times is a stroke of the pen and the trifling cost of this special offer.
