Let's Do It

By Bob Graham
Editor

Welcome to the second issue of the Aletheia. I sit here at this keyboard as the newspaper takes shape around me and I can't help but get excited. We have twenty-four people on staff at the Aletheia now and we're actually having fun at it. I hear many people around campus complain, "There's nothing to do at Montreat..." or "You can't get anything done about it...the administration doesn't care." BULL!!! If folks on campus would stop complaining for a minute and try to figure out how they can make things better, we'd all be having a lot more fun as well as learning what it takes to get along in the real world when we leave this place. The key is don't wait for someone else to take the initiative, Just Do It!

A suggestion that comes to mind is to take an active part in our Student Government Association. Some of you may say that SGA can't do anything. Again I say BULL! The SGA needs to know what we, the students, are upset or bothered by and what we want to see changed. How can we expect the

administration to respect and work with us when we act like children and incessantly complain. I challenge ALL students to come to the next

SGA meeting on Monday at 7:30pm and let's start acting like adults and stop complaining. It's time to DO IT!

Get Involved

By MARK NEIL
Assistant Editor

Why did you come to college? Lets hope your answer to this question is not because your parents made you, but to further your education.

As a college student you must not consume yourself only with the academics that are being taught, although this is of great importance, but also with the fellowship and leadership abilities you will need later in life. M-AC students are blessed with many organizations that can help a student build these needed requirements of a well rounded educator. Organizations such as Student Christian

Association, Fellowship of Christian Athletes, Yearbook committeeman, and Newspaper Staff are just a few of the organizations that would be welcome your help and membership.

If you are not involved in a group, get involved. In the next issue of the Aletheia we hope to publish a complete list of all of the groups at M-AC that are in need of your support. If you are a leader of an organization, please let me know about your membership needs, times of meetings, and how an interested student can join. Please send all inquiries to Mark Neil M-AC Box 462. A.S.A.P.!

Letters...

Dear Editor,

First, I must congratulate the newspaper staff for an awesome first issue of the new year. After working as assistant editor last year, I can appreciate the hard work that goes into every issue of the Aletheia. Good job, ladies and gentlemen!

Now for the reason I'm writing this letter. I have heard numerous comments concerning this first issue of the Aletheia; some good, but mostly complaints. I believe that the number one argument is over the "sports page". Personally, I loved it! This is not to say that

sports are not important to the college. They are. However, athletes are not the only people who make up the college campus. There are other activities here and there are other stories to be covered by the newspaper staff, besides just sports.

Also, if one of you complaining people would like to take some initiative and write some articles for the Aletheia, whether they be sports articles or whatever, I'm sure the Aletheia staff would love some help.
