

Montreat Soccer

By: Sarah Whitecotton
Staff Writer

This year, Montreat soccer has been characterized by a young team with new players. This year has been a growing year, but next year the team is going to be better than ever.

Two bright spots in this year's team include Moose Aksakl and Hunter Stevenson. Aksakl leads in scoring with 8 goals in 7 games, while Stevenson, the captain, has shown wonderful leadership and guidance for the team

spiritually and physically.

The soccer team has a record of 3-5-1 with wins coming against Young Harris, Montreat Alumni, and Truett-McConnel. The team has 4 matches remaining in the season. If they are able to win all four matches, their record will be 7-5-1 which would yield an average percentage rate

of 58.33%, making this year's soccer team the best in Montreat's history. The standing record dates to 1985 at 9-7 with a 56.25% average percentage rate.

Next year, the soccer team will join the NAIA and the NCCAA conferences and will play a much more difficult schedule.
