Laws of Nature

Murphy's Law

What can go wrong, will go wrong.

O'Toole's Commentary on Murphy's Law

Murphy was an optimist.

Nonreciprocal Law of Expectations

Negative expectacies generally yeild negative results

Positive expectacies generally yeild negative results

Skinner's Constant (Flannagan's Finagling Factor)

The number which, when multiplied by, divided by added to or subtracted from the answer you get, gives you the answer you should have gotten.

Law of Selective Gravity and Jenning's Corollary

Any object will fall as to do the most damage. The chance of the bread falling with the buttered side down is directly proportional to the cost of the carpet.

Gordon's First Law

If a research project is not worth doing, it is not worth doing well.

Maier's Law

If the facts do not

conform to the theory, they must be disposed of.

Alka Seltzer's Laws of Indegestion #5

Your stomach's sensitivity to food is inversly proportional to the craving you have for the food.

Boren's First Law

When in doubt, mumble.

Barth's Distinction

There are two types of people:

Those who divide people into two types

Those who don't

Lloyd's Law

It is intuitively obvious to even the most casual observer

Risher's Reason

History isn't everything but everything is History

Kaminer's Corollary

Put everything away

influential time period of growth and maturity. Research is being conducted by myself and other concerned upper-classmen exploring the possibility of inserting the experiences of the "Freshman Summer" into the summer after high school, to save us and them a lot of grief.

Asheville's Life Chain

By Scott Ward
Staff Writer

On Sunday, October 6, among the wind and the cold, about four thousand people gathered to rally for the pre-born in what was called the Asheville Life Chain. A Life Chain is a chain of people that stretches for miles, with each person holding a sign that either says, "Abortion Kills Children," or "Jesus Heals and Forgives."

According to Pastor James Swatzell of the Word of Life Christian Center, the desire for the protest was twofold. The first being that the government would see

the will of the people and would begin to change the laws legalizing abortion. The second reason for the protest was so that people would look for other options.

Although the protesters received their share of obscene gestures and smart remarks, the rally was very peaceful and no arrests were made. From my vantage point on Tunnel Road, however, it was quite apparent that there were those who clearly did not agree with the protests. The reaction from the pro-choice groups, however, was surpr-

isingly small.

Since 1973, over twenty seven million preborn children have been aborted. That comes out to roughly one million five hundred thousand every year. Of those, less than three percent are performed in the case of rape, incest, or danger to the mother's life. If you would like to take part in Life Advocates, you may call 298-5757 and speak with Meredith Hunt, or you may write to Life Advocates, P.O. Box 19205, Asheville, NC, 28815.
