CRISWELL PREDICTS

NEW DIVORCE LAWS - I predict divorce laws in all 50 states will become federalized within the next three years, which will make it impossible for responsible persons to escape alimony payments.

BUSINESS BOOM - I predict business will ride the crest of the wave next year and by late spring our economy-minded nation will be in one of the biggest booms we have ever known. Look for real estate investments to take a big jump after January 1.

AMERICAN TOURISTS STRANDED - I predict thousands of American tourists will be stranded in the Middle East this summer because they took the increased hostilities between two neighboring nations too lightly. They will be given ample warning by the U.S. State Department, however.

MISSILE TRIUMPH - I predict the Pentagon will amaze even Russia with a coming announcement concerning the latest missile triumph. This has long been a hush-hush, top-secret item.

NEW REDUCING PILL - I predict a fantastic new reducing pill will soon be on the market. The pill induces a harmless fever which burns off fatty tissue in a matter of weeks. It will make even the most obese person thin, trim and slim.

FACE LIFT WITHOUT SURGERY - I predict a new face lift without surgery will soon be available. This will be done through the use of acids, which eat away the old skin, lift sagging muscles and return the features to their original state.

THREE COMING EVENTS - I predict your daily life will be changed by three coming events: 1. There will be no more musical commercials due to a new demand by the musicians' union. Singing will be used but with no musical background. 2. The Federal Communications Commission will crack down on all overlong commercials on both television and radio. 3. All contests with a prize using television, radio or U.S. Mails will be forced to follow strict regulations and sponsors must represent their prizes fairly and name the true number of contestants and the winners.

HOLLYWOOD SCANDAL - I predict Hollywood will hide its head in shame over a coming scandal that will be felt throughout the film industry.

PRINCESS MARGARET'S VISIT - I predict Princess Margaret will make a whirlwind visit to the United States on a social basis next year and will demand informal treatment.

NEXT WEEK'S HOROSCOPE

FOR RELEASE WEEK OF JUNE 22, 1981
If your birthdate occurs this week...
The first week of summer can mean a new start.
Make sure your efforts are straight from the heart.

Aries Mar. 21 - Apr. 19 **Mars**
Time for all Arian Rams and Ewes to wind up loose ends. Wool-gathering should result in Arian knit-wits producing some impressive new patterns in their lives. Wedded Arians find mates more "understanding."

Taurus Apr. 20 - May 20 **Venus**
Venus rules the Taurean's stars this week. It's a Bullish time for all Bovines who make romance top priority. In business, shrewd Taurus Bulls and Cows sniff out success and make the right moves.

Gemini May 21 - June 20 **Mercury**
The Gemini Twin can expect a double helping of everything this week. Trips result in your meeting special people. Business ventures produce unexpected bonuses. Give new prospects a second look.

Cancer June 21 - July 22 **Moon**
This can be the most difficult period for Cancer Crabs who feel especially restless. All that seems to be gleaming beyond the horizon may not be a guiding light. Put off decisions until you've checked your motives again.

Leo July 23 - Aug. 22 **Sun**
Lots of Leos and Leonas will want to turn their single dens into honeymoon havens during the last weeks of June. Wedded Leo natives should start stepping out more. Clever cats can bag a big business deal.

Virgo Aug. 23 - Sept. 22 **Mercury**
Mercury rules the Virgan's stars so as the thermometer starts to climb, the usually reserved Virgan loses his or her cool. Take advantage of the change in mood. Wedded Virgans should act romantic again.

Libra Sept. 23 - Oct. 22 **Venus**
The Libran's double-life is about to be exposed. As the weather warms up he or she will show what lies beneath that dignified exterior. Once the Libran gives in to that secret desire to have fun, everyone benefits.

Scorpio Oct. 23 - Nov. 21 **Pluto**
Lost your sting? It's just a bit of summer weather that has you under the weather. If you can, get away to a cool spot for a while. You may also find yourself warming up to a Piscean's romantic suggestions.

Sagittarius Nov. 22 - Dec. 21 **Jupiter**
Romantic inclinations are on the rise. Cupid's arrows make the Sagittarian archer an almost-never-miss marksperson. Singles might aim for Aries and/or Cancer. Wedded folks should target home harmony.

Capricorn Dec. 22 - Jan. 19 **Saturn**
The Capricornian Sea Goat feels restless. But butting in on friends isn't the best way to use up extra energy. Concentrate on business or romantic matter left undone. Treat yourself to a fine culinary reward.

Aquarius Jan. 20 - Feb. 18 **Uranus**
The Aquarian in love may find this week confusing. Be patient. Don't ask questions. All answers start to come on their own. Leo lovers open up first. Virgans take longer. Reread all contracts before signing anything.

Pisces Feb. 19 - Mar. 20 **Neptune**
The Piscean Fish may find he or she still knows how to bait the hook when pursuing Cupid's quarry. But be careful. The one who didn't get away may not be the one you really want. Net profits prove more generous.
