**NEXT WEEK'S HOROSCOPE** BY SALOME

FOR RELEASE WEEK OF AUGUST 24, 1981  
Virgos would love to know include Tuesday Weld Elliott Gould, Sean Connery (the original 007) and the boxing champ, Rocky Marciano.

**Aries** Mar. 21 - Apr. 19 **Mars**  
Feeling somewhat sheepish about that last goof? Well, the Aries native is both honest and naive and folks are quick to forgive you because they know you never meant to hurt anyone. Be flexible.

**Taurus** Apr. 20 - May 20 **Venus**  
Feeling bullish about your chances in both love and money is quite likely to come through for you. Your usual careful consideration of offers will show you how to enhance the chances you're being given.

**Gemini** May 21 - June 20 **Mercury**  
That Mercurial nature of yours really gets put to the test. You crave change but you know you'd better wait out the situation you're in. Be patient. Something good comes out of it. Meanwhile, treat yourself to some fun.

**Cancer** June 21 - July 22 **Moon**  
The Cancerian Crab tends to get too possessive this week. You might try to assess how much you really need what you want. In personal matters, let your mates and dates get a word in edgewise.

**Leo** July 23 - Aug. 22 **Sun**  
That business offer seems like catnip, but check it out before it becomes a major concern. In matters of love, the loving Leos and Leonas who find Aries partners will experience a perfect relationship.

**Virgo** Aug. 23 - Sept. 22 **Mercury**  
Mercury makes you feel like making changes this week. But before you shift positions on money matters, check all aspects of the move. The stars hint at caution. Domestic matters also need some tender, loving care.

**Libra** Sept. 23 - Oct. 22 **Venus**  
Resist a tendency to blame others for your problems this week. Instead, look to see where you could have said yes or no at the right time. A new change in both business and romance looms. Think before you speak.

**Scorpio** Oct. 23 - Nov. 21 **Pluto**  
Wind up unfinished chores. One reason you were feeling a bit stingy with yourself was your reluctance to reward yourself for those jobs well done because they weren't done yet. Go out and enjoy a big treat.

**Sagittarius** Nov. 22 - Dec. 21 **Jupiter**  
You're really feeling the call of the wild this week. Put some of that restless energy to good use. Write those old friends who have been waiting to hear from you and finish up a project that could earn you some notice.

**Capricorn** Dec. 22 - Jan. 19 **Saturn**  
Kicking up your heels in typical Capricorn Goat fashion becomes more fun when you set a date with your mate for a late date on the town. Single Goats rate high with Cupid if they wine a Gemini or Virgo.

**Aquarius** Jan. 20 - Feb. 18 **Uranus**  
As summer wanes your energies rise. Start to plan your fall wardrobe now. Good buys appeal to your sense of thrift. That romance seems to be lagging because of your own lack of interest.

**Pisces** Feb. 19 - Mar. 20 **Neptune**  
Cheer up! Though summer's on the wane a summer-time friendship could turn into a romance. On the job, the Piscean Fish could find himself or herself getting into deep waters. Resist office politics.
