**THOSE WERE THE DAYS**

**TIE ONE ON.**

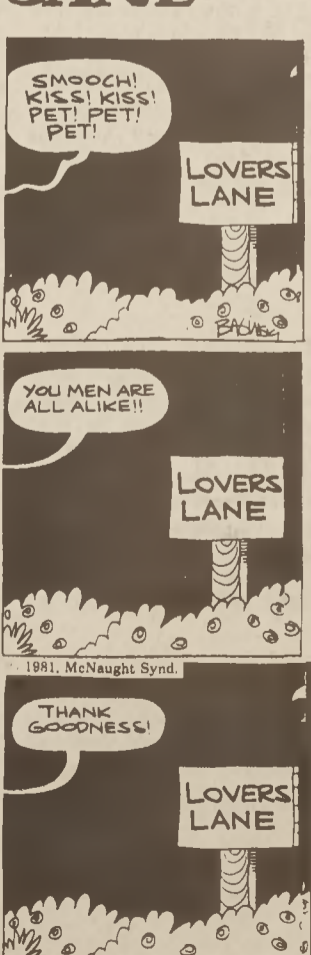

Unlike shoes, you can't buy new feet when they wear out. That's why NIKE makes shoes for individuals. Shoes for the road, the trails and models for both. For feet that are flat or arched, rigid or flexible. Whether you chum out 125 miles a week or run a good ten. So come tie one on. And avoid a run-in with your feet.

ROTATION OF RADIALS is recommended for most drivers. It evens out wear. Keeping wheels properly aligned and tires properly balanced helps avoid uneven wear.

**NEXT WEEK'S HOROSCOPE**  
BY SALOME

FOR RELEASE WEEK OF OCT. 19, 1981  
A success-oriented Libran is Gene Autry, ex-cowboy and baseball team owner. Scorpio natives are born leaders like Indira Ghandi and the Rev. Billy Graham.

- Aries** Mar. 21 - Apr. 19 **Mars**  
Your ruling planet, Mars, is stirring things up. Take advantage of the changes involved and review old habits that have been inhibiting your progress. In business, an old investment pays off.
- Taurus** Apr. 20 - May 20 **Venus**  
Unsettled weather in your life? What seems to be a torrent could really be a cleansing, refreshing rainfall. It depends on how you take advantage of the situation. Clearing out deadwood could prove to be a windfall.
- Gemini** May 21 - June 20 **Mercury**  
Your airy side of the Gemini Twin senses some changes in the wind while your more practical side is making excuses for that unsettling feeling. Follow your instincts and let those winds blow some dust out of your life.
- Cancer** June 21 - July 22 **Moon**  
Dissatisfaction with the job needs looking into. Is it all their fault? Sometimes the Cancerian native tends to moon about situations that really don't exist. Try to be a bit more understanding.
- Leo** July 23 - Aug. 22 **Sun**  
Your Sun sign says this could be a bright week for you. Though the stars are signalling unsettled situations, you can take advantage of the shifts in plans made by others. Pounce on the best deal you can make.
- Virgo** Aug. 23 - Sept. 22 **Mercury**  
Mercury, your ruling planet, exerts a strong influence on you this week. What was once unsettling is now intended simply to shake you out of any tendency to lethargy. Resist temptations to derail your goals.
- Libra** Sept. 23 - Oct. 22 **Venus**  
Venus, your ruling planet, is stirring the pot. Watch carefully for what floats to the top. Opportunity is calling. Continue to return all messages promptly. On the romantic side, a Capricorn waits to hear from you.
- Scorpio** Oct. 23 - Nov. 21 **Pluto**  
This is a big week for the Scorpio native as Pluto's influence starts to exert itself. This is the week the stars say your business interests need guidance. Steer a straight course. Success follows sincere efforts.
- Sagittarius** Nov. 22 - Dec. 21 **Jupiter**  
Stay cool. That heated situation around you at work can't even singe your eyebrows if you ignore it. Romantically, try to be more understanding of both mate and date. Most folks have unsettled weeks to live in.
- Capricorn** Dec. 22 - Jan. 19 **Saturn**  
Your tendency to want to boast before you finish your job could land you in a sticky situation. Resist the urge to crow until the job is done. In romance, a Libra could be the perfect lovebird.
- Aquarius** Jan. 20 - Feb. 18 **Uranus**  
You're feeling adventurous. Accepting dares seems the right thing to do. But choose which challenge you want to concentrate on. Don't separate yourself into fragments. An Aries from the past returns.
- Pisces** Feb. 19 - Mar. 20 **Neptune**  
When someone tells you your idea is all wet, you know you have a winner working. Don't be discouraged by the short-sightedness of others. On the romantic side, a Virgo would like to keep you in sight.
