

NEXT WEEK'S HOROSCOPE
BY SALOME

FOR RELEASE WEEK OF DECEMBER 7, 1981
Sagittarians who have reached lofty goals include Frank Sinatra, Dick Van Dyke, Lee Remick, Flip Wilson, Dina Merrill, Rita Moreno and Ted Knight.

Aries Mar. 21 - Apr. 19 **Mars**
Your come-hither eyes have caught the imagination of a Libra who has ideas on how to make them shine brighter. If married, expect mate to offer a winter-time vacation that will warm your heart.

Taurus Apr. 20 - May 20 **Venus**
Of course, you're a romantic Bovine but someone may try to throw the Bull in a curve you won't appreciate. Be on your guard against a false alarm from Cupid. The real thing's waiting to give life a charge again.

Gemini May 21 - June 20 **Mercury**
It's time to come down to earth although your airy nature often resists coming in for a landing. How about facing up to the fact that an earth-sign native is waiting to welcome you with open arms?

Cancer June 21 - July 22 **Moon**
Choose between being the Cancerian Crab or the Moon Child you could be. Either attitude gains you an advantage. The Crab scores high points in business dealings while your Moon Child self is happily domestic.

Leo July 23 - Aug. 22 **Sun**
Your sunny disposition lights up the lives of everyone and you'll bask in that reflected glory. Your love of life will give you a gilt complex. Look for assurances that are more than surface glitter.

Virgo Aug. 23 - Sept. 22 **Mercury**
So great at sticking to your guns, you're the really big shot where you work. Hold high caliber ideals regardless of the smooth talker's trying to shoot you down.

Libra Sept. 23 - Oct. 22 **Venus**
A brain love of lore and order is well served. You'll find some stories out of the past that will explain old habits and help establish new friendships. In romantic matters, prepare to be surprised.

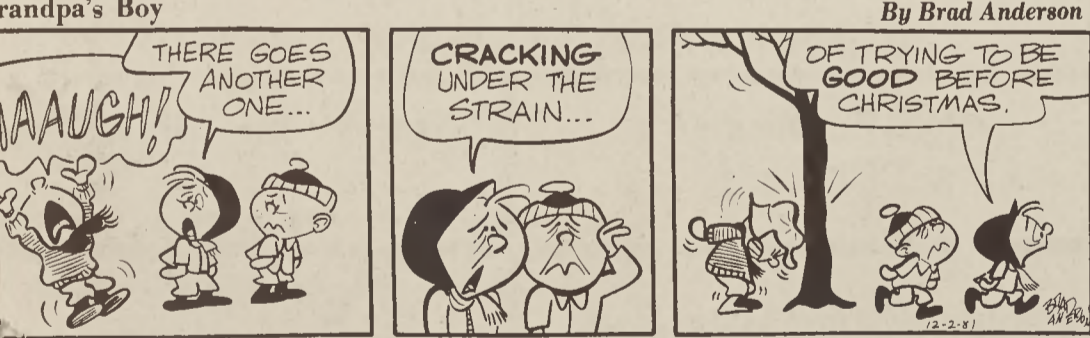

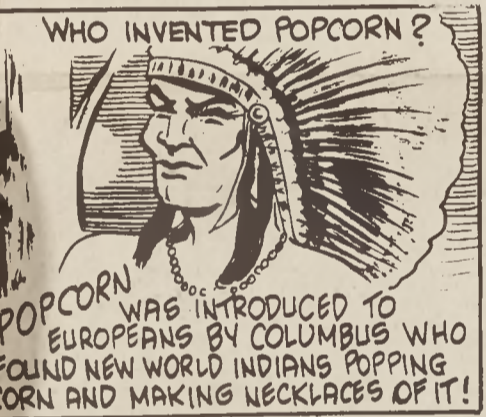

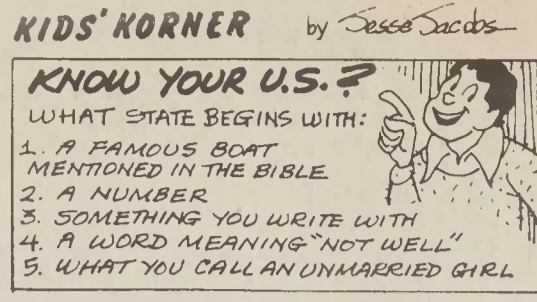

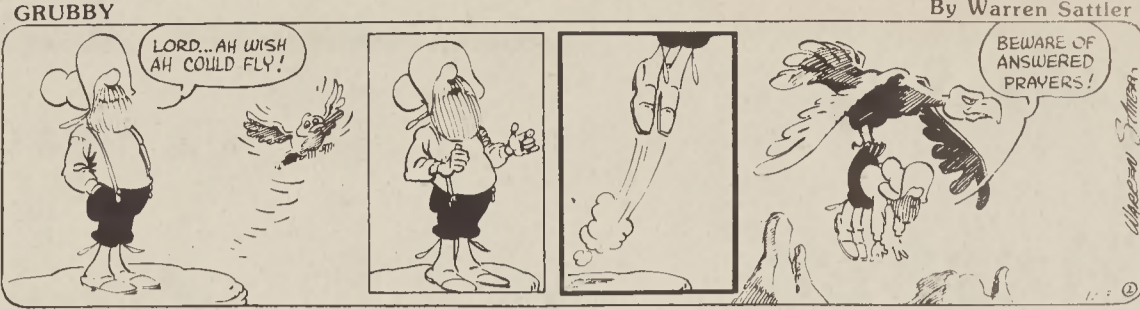

Scorpio Oct. 23 - Nov. 21 **Pluto**
Pluto lies ahead, but because you have a sensible old head on your shoulders, you'll be able to turn it to your advantage. Cupid sets up a vantage point for a fish who would love to fish for your compliments.

Sagittarius Nov. 22 - Dec. 21 **Jupiter**
You set in motion months ago start rewarding now. Emotional investments pay off in new romances. Promotional investments result in added fits at the work place. Your up cycle has started.

Capricorn Dec. 22 - Jan. 19 **Saturn**
Saturn could charm an Eskimo into a lifetime subscription to the Bikini of the Month Club. Now turn some of that powerful personal appeal in the direction of folks who could help you win big in love and business.

Aquarius Jan. 20 - Feb. 18 **Uranus**
The stars are as bright as you are this week. In advance, reach toward a Virgo who wants to date you. Business promotion is within easy reach, but don't look some outside opportunities coming your way.

Pisces Feb. 19 - Mar. 20 **Neptune**
You're smooth and sexy and wise enough to know how to play the games of life. But be prepared for someone who wants to play by his or her own rules. A problem worker will soon have something to tell you.
