SNAPPY ENTERTAIN-MENT.

FIVE-YEAR-OLD COMEDIENNE SINGS LATEST POPULAR SONGS.

. There was "class' to every part of the entertainment at the "Y." on Tuesday evening. Mr. Jesse C. Gray, acting Y. M. C. A. camp social secretary, appeared in his original character as "Elder Cobb of Tennessee." In this role, he gave two side-splitting monologues, one of them, "Love and Poetry," bringing forth prolonged applause. Mr. Gray also sang some humorous songs, two of which were parodies of his own on Where the River Shannon Flows" and "Won't You Come Over To My House.'

Over To My House. Mr. Darby, Y. M. C. A. building secretary at "Y" 105, followed Mr. Gray with a short, snappy address on "America's Reasons for Entering the War." Dr. Darby said that there were five elements in Germany's policy that are conspicuous by their absence from our policy: territorial aggrandizement, unscrupulous attainment of commercial supremacy, indifference to the shedding of the blood of her own men, a spirit of revenge, and hatred of the enemy. On the other hand, the speaker said, there are five elements emphatic in our policy: We fight for the sacredness of international obligations, for the bringing of succor to the weaker nations, "to make the world safe for democracy," for the brotherhood of nations, and for perpetual peace founded upon Christian principles. Dr. Darby's lucid exposition was received with cheers.

Then the men were introduced to an astonishing little lady from Charlotte, Ethel Smith, a five-yearold child of quite unusual talent. Miss rithel sang "Parlais vous Francais and several other songs very uniquely, completely capturing the hearts of the people in her audience with her interpretations. She was very fetching in her manner of the veteran artist. The boys freely said that Miss Ethel s the best little singer they hda ever heard. She has promised to visit Base Hospital "Y" again.

PREACHED ON "WASTE."

Dr. John A. Hainer, Baptist camp pastor, preached a fine sermon on "Waste" Sunday morning at the "Y." Dr. Hainer dwelt on the widespread waste of things material and also on the common waste of life. Dr. Hainer's camp pastorate came to an end this week and he returned to Philadelphia on Thursday evening.

A little while ago Dr. Jackson was deeply disturbed because he had a tooth; now he is profoundly perturped because it is gone.

MEANS THIS.

(Editor's Note: The first issue of The Caduceus was limited in circulation outside of Camp Greene and many citizens were not reached by the opening explanation of the meaning of The Caduceus. Several queries have been mailed to The Caduceus office about the derevation of the title of the base hospital magazine.

The Caduceus is the ensigna of the medical department of the United States army. It is the design of the snakes and the winged wand that appears upon the collar button of the medical soldier. A likeness of the emblem is shown above.

Captain Thomas S. Crowe, M. R. C., detachment commander, has prepared a historic account of the origin of the caduceus emblem, which we reprint here):

"Aesculapius, the Father of Medicine, adopted as his messenger or orderly the deity Mercury or as he was sometimes designated Hermes. In ancient mythology, he was the god of Speed or Switness and usually portrayed with winged heels and cap, assisting himself in his journeys with a winged staff. In those days serpents were indicative of Evi for disease and were used for the design in that significance.

"Disease or evil as depicted by the serpents, are shown on the Caduceus as recoiling from the magic wand of Mercury, indicating that Aesculapus had dispatched his lightening assistance to destroy sickness and to do so in all haste. Hence the insignia of the Science of Medicine is derived."
