**NURSE CORPUS**  
**N E W S**

BY MISS MARY LaSELL

**NEW NURSES' HOME****NEW EQUIPMENT****A. E. F. TO HAVE MODERN CLOTHING.**

The men overseas are to receive many articles of new equipment very shortly as the hard winter has shown quite a little of the present clothing faulty.

The new shoes will have several additional features and will be actually water-proof. There is to be a new toe plate added, projecting up on the body of the shoe proper, and the heel plate enlarged.

Of all the newer articles that are coming into use the new breeches are perhaps the most unusual. In fact they are actually trousers very similar to those worn in civilian life save that the lower end is narrower, the regulation spiral leggings will be worn over these as was customary with the older style. This will obviate the defects of their predecessors; tight lacing and lack of rapid dressing.

There is also a new slicker on the way that is absolutely impervious to moisture, a new all-leather working glove and another style of woolen glove that reaches almost to the elbow.

Special clothing is to be provided for chauffeurs and motorcycle men.

Pvt. L. C. Hancock is again with us after "knocking 'em dead" in New Haven, Conn., for a few days.

**FIRST SERGEANT FOR BASE NO. 54**

Corporal Joseph Wenger recently transferred to Bose Hospital No. 54, has been appointed Sergeant first class and first sergeant of that organization. Sgt. Carl A. Stephen has also been rated sergeant first class.

**STRAYED OR LOST.**

Lost, strayed or stolen somewhere in the surrounding country, one horse, finder please return same to Camp Greene and receive the heartfelt thanks of all concerned.

It is rumored that the missing horse was the climax to a most enjoyable ride one evening last week, by several persons connected with the Base Hospital. It seems upon investigation that as our subjects were trotting past a certain orchard not a great distance from here they noticed some attractive fruit and concluded to sample a bit of it, fastening the animals to a convenient fence. While they were partaking of the fruit some one else was apparently taking the horse for when they returned, he was among those absent. No known traces have been found to date so they tell us.

We express our deepest regret and extend our sympathy to Sergeant William Moore, who has been called to Philadelphia, Penn., by the death of his mother.

**BACK TO WORK.**

After a very pleasant vacation spent with her people, Miss Agnew has returned to this hospital to assume her former duties.

**ON LEAVE.**

Miss Cassidy, Miss Dreisiacker, Miss Archer, Miss Condon and Miss Phillips are all enjoying ten days at their homes.

Miss Harriet W. Eoff from Christiansburg, Va., has recently arrived for duty here.

**OVERSEAS.**

The following nurses left this hospital Thursday night to join their unit in New York City: Miss Willie F. McKee, Miss Louise C. Musacchia, Miss May Nugent, Miss Geraldine A. O'Sullivan, Miss Beatrice Peeples, Miss Alva A. Shields and Miss Victoria L. Musacchia.

**WITH THE DOUGH-BOYS.**

Who is that man of haughty mien,  
With ample chest and peanut bean,  
And movement like a Ford machine?  
Why, Sonny, that's the sergeant.

Who's busy as a bumblebee,  
To get you up at reveille;  
And shouts your name in strident key?  
Why, bless you, that's the sergeant.

Who yells, "Right Dress" and "Right  
oy Fours,"  
And gets as mad as all out doors—  
And sends you out to do the chores?  
You're right, that's the Sergeant.

Who carries all the world's disgrace,  
Writ in furrows on his face,  
And looks for trouble every place?  
Why, that must be the Sergeant.

Who cries "Fall in," and when you do,  
Says, "As you were, you rough-neck  
crew."  
"Fours right about; I'll put you  
through!"

Why sure, that's like the sergeant!

Why does the poor boy act this way?  
Will he be General some day?  
No, Sonny, quite the other way,  
For Hell is full of Sergeants!
