

## HAVE MOVED

### BASE HOSPITAL NINETY-TWO IN NEW QUARTERS.

Base Hospital No. 92, which has been stationed at Camp Greene for the past two weeks, has been recruited to its full quota and is now located just east of the camp headquarters. The hospital unit was formerly stationed near the camp water tank.

One hundred men from Camp Greenleaf, Oglethorpe, Ga., arrived on Tuesday afternoon and are enrolled in the hospital organization. They were conducted to Camp Greene by Lieutenant J. M. Smeitzer. They are men of but few weeks service and are recruited from New York and other New England states.

"Camp Greene is the best looking camp we have seen," declared the new comers when interviewed on Friday.

The men of the base hospital No. 92 unit have done little but clean up the camp grounds since they arrived at Camp Greene. The region of the water tank had just been put in order when the order to shift camps came. Now the new tenting site has been made presentable and the query is "Where next?"

### WOLLARD BACK.

After a leave of several days Sergeant First Class George Wollard, formerly in charge of the sanitation of the barracks and the tents, has returned to this station for duty.

### ON THE JOB.

Corporal Freeman is again back on the job in the X-Ray department after a stay in the hospital where he underwent treatment for several weeks.

### GOES HOME.

Sergeant William E. Wright of the detachment office, has left us for ten days to visit a scene of great attractiveness in New Haven, Conn., and to journey onward to his home in Norwich.

## GREETINGS

The following Labor Day greetings were sent to the boys in France by Charles M. Schwab, head of the shipping board:

"I am indeed glad of the opportunity offered by this Labor Day to send to you boys in France my sincerest greetings.

"We read with wondering eyes of the splendid feats you are performing and our hearts are overwhelmed with patriotic enthusiasm and gratitude for the stand you are making to safeguard democracy.

"We are with you in every possible way; are devoting all of our energies and making all of the sacrifices, no matter how great, so that you may be supplied with food, ammunition, and other necessities.

"The ships are coming out at a splendid rate, and this shows what our industrial workers can do when inspired by patriotic enthusiasm. God be with you all and may you return covered with honor and the glory of magnificent deeds in keeping with American traditions."

### WARD CLOSED.

The obstretical ward of the base hospital, opened some weeks ago as an emergency measure to receive the wife of a soldier, has been closed as the patients admitted then have left the hospital.

The following births were reported from the ward:

Virginia May Kershenblatt, daughter of Sergeant and Mrs. Irvin Kershenblatt.

Willie Jane Roberts, daughter of Sergeant and Mrs. William Roberts.

While the ward was open a small number of medical cases in the wives and children of soldiers were also cared for.

## QUARTERMASTER

Sergeant Clifford T. Smith is enjoying a ten-day furlough at his home in St. Louis, Mo.

Quartermaster Sergeant Elrod has returned from a ten-day furlough spent at his home in Jefferson, Ga. and "her" home in Athens, Ga.

Is he dead? No! Corporal Coleman is very much alive. The horse that was the cause of Sergeant Barth having a wrenched back and Private Wetterholm being in the hospital with a broken arm was tamed by Corporal Coleman. There was a collection taken up for flowers prior to his adventure, but as it was not needed Quartermaster Sergeant Miller and Private Kerkhoff enjoyed the show at Keith's.

Overheard at the Soldiers' Club Monday night:

"Who is that graceful dancer?"

"That is Charlie Kerkhoff."

"Isn't he a wonderful dancer?"

"Isn't he a wonderful dancer?"

The mystery is solved as to why girls leave home. Glance through this issue of The Caduceus and gaze at the group picture of the Q. M. C. Aren't they handsome???? They possess faces only a mother could love.

Sergeant Wheeler was the recipient of a letter from his brother who is en route to France. We all wish him the best of luck.

Clyde can send him a letter stating that he is en route to "Somewhere in Charlotte."

Sergeant Wheeler, Corporal Moreland and Private Mohr have not as yet fully recovered from their week-end visit spent in Concord.

—By Sergeant O'Malley.
