MORE HOSPITALS**THREE BASE AND EVAC. NO. 30 ORGANIZING.**

In response to the recent call for a thousand able-bodied medical men for immediate service overseas four new hospitals are being mobilized at Camp Greene.

Evacuation hospital No. 30 which has already sent fifty of its number to the Base Hospital for training in that work, is forming rapidly, men and office's being transferred to that outfit almost daily.

The three base hospitals now under way are numbers 122, 123 and 134 in addition to Base No. 92 which has almost finished its preparation for foreign service.

All of these organizations are located just east of the Tuckasegee road near camp headquarters.

DO YOUR SHARE**IS RINGING NOTE OF CAMP LAFAYETTE DAY.**

"Do your share and do it well," was the theme of the address by Captain Gleason of the headquarters' staff, at the Lafayette day celebration at the Liberty tent last Friday afternoon. "Some of us may be called upon to make the supreme sacrifice," he said; "others will remain behind but we are each doing our share and I am sure we will all to it well."

September the sixth was set aside as a day in which to commemorate the birth of Marquis de Lafayette, the French patriot, who did so much for America in the first days of her existence.

The patriotic appeal of Captain Gleason followed which brought the crowded tent to its feet a mass of whistling, cheering soldiers, gathered from all parts of the camp for the occasion.

The boys gave way to their spirits by singing the battle hymn of the public which led up to the introduction of J. T. Mangum of the "Y" who delivered the principal speech of the afternoon. He described the life of Lafayette from year to year and told of his firm devotion to his ideals and above all that the born French aristocrat had the courage of his convictions.

Extracts from his address are:

"We believe, under God, that the time is not far distant 'til the Stars and Stripes, the Tri-color of France, the Union Jack of England and the battle-scarred banner of Belgium will stand side by side for the democracy of the people."

In concluding his remarks Dr. Mangum said, "Let us one and all thank God for our country and her ideals—and we can look into the face of the not far distant future to the one God one element and the one divine effort toward which the nation moves."
