## GETS GOLD LEAF

MAJORITY COMES TO PHILLIP  
A. SHEAFF.

The bright gold leaf will be showing in the most seemly fashion on both shoulders of the former Captain Phillip A. Sheaff, assistant to the commanding officer, George A. Renn, when the latest made major returns from a brief leave, next week. The commander's assistant was commissioned as a major last week.

Major Sheaff has been at the base hospital since October 31, 1917. He has been in the medical service of the army since April 7, 1917. He was commissioned a first lieutenant on April 25, 1917, and was in training at Fort Benjamin Harrison, Indiana, until July 27. From that time until the last of August, Phillip A. Sheaff was in medical research training at Rockefeller Institute. His first assignment was to Fort Oglethorpe, Ga., from which post he was moved to Camp Greene in October.

On February 12, 1918, he was commissioned a captain. A few days later Captain Sheaff, who had been acting as assistant to the adjutant, was made hospital adjutant. During the past few months the present Major Sheaff has been assistant to Lieutenant-Colonel Renn.

Lieutenants Upton and Schleussner are confined to the officers' ward.

Major Sheaff is on a ten-days' leave at his home in Philadelphia, Pa.

I thought that I would never regret the abolition of German music until I heard our new band practice.

## CAN BUY BONDS

MAYOR WAY IN CHARGE OF  
HOSPITAL CAMPAIGN.

With the opening of the Fourth Liberty Loan campaign, came many requests from the officers, nurses and enlisted men as to the procedure necessary for them to buy bonds direct from the government, as was the policy of Uncle Sam in the previous loan issues. Accordingly, Lieutenant-Colonel George A. F. Renn, the commanding officer of the U. S. A. base hospital, Camp Greene, N. C., selected Major Joseph H. Way, chief of the reconstruction service, to attend to the needs of those on duty at the hospital.

In the competitive loan subscriptions conducted at this camp a year ago Major Way was in charge of the solicitations at the hospital and was astonishingly successful but with the present flotation of bonds the policy of the government has altered somewhat and no one in the service will be asked to buy a bond unless they feel that their monthly allowance will permit it.

Those of the officers, nurses or enlisted men of the hospital personnel desiring further information can consult with Major Way at his office in Ward E-3.

Lieut. Robert P. Beckwith returned to duty on Tuesday, following a long illness at which time he was a patient in this hospital.

Lieut. Frederick Wolf joined from Rockefeller Institute, New York, for duty. Lieutenant Wolf is of the sanitary corps.
