SOME OF THE HARDEST WORKING SOLDIERS IN CAMP.

If in visiting Camp Greene anyone desires to see some real soldiers let them pay a visit to Ambulance company No. 60 on the Tuckasee Road just west of the camp Headquarters. This organization is made up of men practically all of whom have been in the service at least a year and the greater part of that number are members of the old regular army. These are the boys who took over the work of transporting the sick to the hospital and carrying the recovered patients to duty with their own outfits; the latter part of August when fourteen ambulances were turned over to them by the base hospital.

Since that time the boys have answered calls at all hours and in all kinds of weather, the astonishing number of them running well up into the thousands. During the influenza epidemic the boys worked both day and night often from reveille until 3 a. m. the next day one driver occasionally taking as many as fifteen calls.

The above picture shows them as they are ready to work and ready to smile.
