## County Wide School Plan

### FACTS ARE GIVEN IN COUNTY-WIDE EIGHT-MONTHS SCHOOL TERM

School Units	Total School Enrollment	Taxable Property	Taxable Property Per Child Enrolled
Whole County	24,599	158,000,000.00	6,425.00
High Point	5,396	31,000,000.00	5,745.00

Taxable Wealth Per Child.

Whole County—\$6,425.00

High Point—\$5,745.00

The purpose of the county-wide eight-months school term is to put all the property of the County back of the education of all the children of the County for a school term of eight months. The proposed plan is simply an extension of the present six-months plan.

The County now levies a tax on all the property of the County for a six-months school term. The funds derived from this tax are apportioned to all the schools of the County, both rural and city. The county schools have a special tax for two additional months, and the city schools have special taxes for three additional months. It is now proposed to levy a county-wide tax for an eight-months term. The cities, of course, will still be free to extend their terms to nine months by levying the necessary special taxes for this purpose.

The greater the amount of property available for taxation, the lower the rate necessary to raise a given amount of revenue. The average amount of taxable property back of each child throughout the whole County is \$6,425.00. In High Point the amount is \$5,745.00.

The present county school tax for a six-months term is 37 cents on each \$100.00. From this tax High Point will receive this year \$120,000.00. In order to raise an equal amount by local taxation, the City of High Point has to levy a tax of 40 cents.

A tax of 37 cents on \$6,425.00 will produce more revenue than a tax of 40 cents on \$5,745.00.

These facts mean that the county-wide eight-months school term will be to the financial advantage of the City of High Point. For every cent which the County may add to its levy for schools, the City will be able to subtract a cent, without reducing the City's total income for schools.

#### County-Wide School Indebtedness.

School Units	Property Valuation	Total School Indebtedness	Per Cent of Indebtedness
Whole County	\$158,000,000.00	\$2,656,000.00	1.7%
High Point	31,000,000.00	725,000.00	2.3%

### SENIORS TO GIVE PLAYS

The senior class plays will be put on Tuesday evening, April 21, at 8 o'clock in the high school auditorium.

Each year the senior class presents a play, the proceeds of which usually go toward buying the class project. This year the senior class is presenting a group of three one-act plays, "She Loves Me Not," "In the Spring a Young Man's Fancy," and "A Maker of Dreams."

"In the spring a young man's fancy lightly turns to thoughts of love." In this play the young man is affected by the spring and consequently gets himself into an awful predicament by proposing to no less than seven maids, and having them all to accept him and then—but you will enjoy it more to see the plot worked out. And the other two plays are equally as interesting. There are laughs all the way through. And there is a uniqueness of plot that will please a variety of tastes.

It's Tuesday evening, April 21, at the High School Auditorium.

### H. P. DEFEATS GATE CITY

#### SCORE 13-5

Because Greensboro's pitchers were ineffective against the battling youngsters of Coach Boylin the high school baseball team of the Gate City went away from Welch Park Friday afternoon after having been defeated by a decisive score of 13-5. Greensboro made two markers in the first inning and it seemed that the local team would have difficulty in overcoming the lead, but the south side hurler of Greensboro's team was unable to locate the base. Successively seven times he gave a free pass to the initial sack. In the meantime he had virtually given three runs to the locals. At the beginning of the next inning he was replaced by Fife. However, he seemed to be wild also and issued several passes in the first two innings that he worked. After that time he settled down and did creditable pitching during the remainder of the farce.

For the first time this season on the local grounds the home team was able to make a double play. This came in the third inning when M... scooped a hot one near second base. From him it passed to Myers and on to Chilton on first. At no time during the remaining innings were the locals in danger of losing their lead.
