

WHEN SCHOOL IS OUT

EMERYWOOD

School days are nearing the big recess. And the sun bully is coming closer and closer.

Those young prisoners of learning are dreaming already of the golden days of freedom. Their plastic minds long to forget the narrow confines of printed page and yearn for Nature's open places—to engage in the joyous occupation of play.

Where will they play this year?—that boy of yours whose ambition is to some day lead the varsity team—that girl whose birthright is the beauty and grace born of perfect health and normal development?

Don't neglect them, Daddy. They are YOU and HER when you have both passed out of the picture. The torch of life that was handed to you, they will carry on as you hand it to them. See they are able to carry it high.

Emerywood is heaven to growing children. Hills and creeks and golf—these are the transformers—the baby builders—the mind strengtheners. They perform miracles.

Bring your play hungry children and their tired mothers to the place where Nature smiles in her kindest way. Come and live with us all the year and enjoy life to the full.

Emerywood is a family community—because family folks are the kind that make the world go round—the kind worth knowing. "Daddy," ask to see an Emerywood homesite.
