

COACH BOYLIN LEAVES HIGH SCHOOL

Jack Boylin, for two years coach, of the three major sports, football, basket ball, and base ball, at the local high school will not be back next year. He ended his story at the high school with the most successful season in athletics the high school has had in many years. He will be at the High Point college next year.

"Coach," who knows and understands boys, and is the best liked member of the faculty is mourned by every student in the high school but all are glad he will be in the same town.

In an interview this morning coach stated that he looked at the past year as the most successful year in athletics ever had in the high school both in regard to the number of games won and the number of participants.

40 boys came out for foot ball and helped make the past season the most successful ever held winning 10 out of 12 games.

The basket ball season was not so successful in the number of games won but the boys played hard and clean. There were 35 boys out for basket ball.

In the base ball season the team won a majority of games. 30 boys were out for this sport.

In the athletic program Coach Boylin has worked with four primary things in view.

First—Win as many games as possible.

possible.

Second—Develop as many boys as

Third—Develop as much enthusiasm as possible.

Fourth—Develop a fighting spirit backed by clean sportsmanship.

Happiness is a natural flower that comes from the seed of kindness.

Olin: "Tenga usted buenos dias Carlos."

Charles: "Oh yes yes,er,er, Buenos Aires, Montevideo senior."
