

DANCE AFTER REYNOLDS GAME TERMED SUCCESS

(Continued From Page One)

ballons came floating down and began bursting from one end of the gym to the other. Everyone looked "happy about the whole thing" except a few. (These must have been the laborers who put them up.)

Peace and quietness, well peace anyway, prevailed again. But not for long, for "Haiti" Welborn was getting tired of girls he saw around school everyday. He was looking for some fresh little daisy—and he found one—Betty Jo Hedrick. "Haiti's" story was that he was looking for new faces. but I think he wanted to find someone he could up with. Boy! was he surprised, for little Betty Jo was a jitterbug in disguise and nearly wore poor Darrell out!

As the evening was becoming shorter, Mr. Simeon thought it was his turn to give the girls a thrill, so he stepped out to dance with Miss McCain, but they didn't stay long because they were mobbed with everyone wanting to see. In a few minutes, Coach Simeon became brave again and danced with his wife. They were good, too, let me tell you.

The long looked-forward to affair, was drawing to a weary, but a quite joyful and successful close. Everyone went home tired, but deliriously happy, and hoping that a night similar to this one would come his way again soon.

PEP RALLY

(Continued From Page One)

W. M. F. R. kindly consented to carry the proceedings over one of their remote lines and all the people who were kept at home for one reason or another were able to know the great school

spirit that exists in High Point high via the air ways.

The Bison varsity Cheerleaders were on hand with all their pep and spread it on to the assembled throng. After several good ole Bison yells and the crowd began to feel in the spirit of things, the cheerleaders had some of the students on the platform to say a few words over the radio.

courage the thoughtful, frank, and sympathetic approach, and will seek to minimize trival and disputatious argument."

This Forum has no official connection with the student government of the school; it is neither a legislative nor a judicial body; nor is it interested in debate. Its sole aim is to improve information through friendly discussion.

Membership is voluntary. There shall be no dues, and any student in High Point senior high school may join.

Meetings shall be held every other Monday of the school year at 3:30. A panel discussion shall be the purpose of each meeting. Only such business as shall be necessary to the democratic management of the Forum shall be transacted at the meeting so that a maximum of discussion of public questions may prevail.

The Forum shall be under the constant direction of two committees elected from the membership—a standing committee called the board of control and a panel committee.

The meeting of the fourth will be concerned with what the Forum is and how it will be carried out. The officers for the coming month will also be installed.

MIDDLE MEN

tion to further promote Student Council activities has been formed.

The group, after being elected from each homeroom, met in the cafeteria to discuss the dance and to receive information to relate to their homerooms. A second meeting was held after to promote the chartering of a bus by the school.

Hope is expressed by proponents of this group that it may lead to better understanding between the homerooms and the Student Council.
