

Seniors See Picture Depicting Life Of Master William Shakespeare

Seniors gathered last week for a class meeting to see a picture showing the surroundings, plays, and characteristics of Shakespeare.

It started with the homeplace of Shakespeare and told of his hard road to success as a playwright, and also told of his courtship of Ann Hathaway. His first position in the acting world was as a prompter in which he sometimes substituted lines when actors forgot the original ones. After a while, people began to like his witty sayings, so he started rewriting whole scenes. This started him in the writing of plays, and he devoted his life to this profession. Shakespeare has written a total of 37 comedies and tragedies, some of which are, "Hamlet," "Romeo and Juliet," "Macbeth," and many other plays that are now famous.

Watkins Reviews

(Continued from Page 1)

As I look back over the year's work I find only one thing that I wish could have been a better success. That was the annual Social Standards Conference.

I must say that I leave High Point high school and friends who so loyally supported me during my administration, with a pang in my heart. But I am sure that next year's president will guide you to higher standards than the council and I have been able to this year. It is with the warmest spirit that I turn the position over to Bob Hicks.

WESTERN FRONT
(A Sight to Behold)

(Copyrt. res.)

December the 7th, the Japs have struck
Those yellow rats are out of luck
We'll give 'em hell and make 'em run
Right back to the land of the Rising Sun.

We'll run 'em out of the Philippines
We'll make 'em pay for their dirty schemes.
We'll drive them right into the sea
That's the place they ought to be.
They never will try to strike

again
For they will remember Mac-Arthur as a fighting man
They will never venture out again
They'll stay on their island of Japan.

Yes, when Uncle Sam begins to fight
He'll fight for things he thinks are right
He'll do away with those yellow pests
And the sun will fall way out in the west.

New Officers

(Continued from Page 1)

While not connected with the council, Hiatt, too, has maintained an excellent record, both in regular curriculum and outside activities. Her latest office was that of Junior Class secretary, which position she now holds.

Secretary to serve with Hicks and Hiatt will be named next fall, since the girl elected as Senior Representative automatically takes the position of council secretary. Rebekah Conrad served with Watkins and Craven in that capacity during the past year.

Inauguration of the new council will occur sometime within the near future, Miss Louise Hunter, council adviser stated, although at this writing, no date has been set.

Ritz Brothers In Last Picture Here During Past Year

Mirth and Melody took over this high school last week, as the riot comedy "Argentine Nights" was shown to the student body. This motion picture featured the Ritz Brothers for laughs, and the Andrews sisters for the musical touch. As presidents of "Colossal Industries Inc.," the Ritz brothers owed money to everyone.

"After difficulties, the trio finally escaped to a liner bound for South America. One of their investments, a girl band, also escaped with them. Getting involved in a big mixup about bandits, the party settled at a hotel where the girls were supposed to have an engagement, but it was found out that an American named "Abraham Lincoln" gypped them out of their money.

In order to secure the necessary money to run the hotel, the girls decided to capture some bandits and did so. While the Ritz brothers have gone for help, the girls get soft-hearted and release the bandits. Meanwhile, the Ritz brothers find someone who looks like a policeman, but find out it is a singing telegram boy.
