

Who Will Win Them?

Many Awards To Be Given To Outstanding Graduates

Furniture On Display In Gymnasium During Final Week Of School

That High Point is interested in its public school graduates seems evident from the growing list of awards to be presented at the close of each year to members of the senior class.

One of the latest to be announced through Mr. R. T. Holton, president of the Continental Furniture Company, is the award of three pieces of solid mahogany furniture to three top-ranking members of the class of '48.

Furniture Awards Given

The first award, a poster bed, will go to the senior girl graduating with the highest scholastic average. The senior boy with the highest average will receive a chest of drawers. To the boy who has attained the highest proficiency in trade wood-work will be presented a second chest of drawers. In the event of ties, the first two awards will be duplicated.

Watches Again Offered

Again this year, Perkinson's is offering valuable watches as gifts to two fortunate graduates. An eight-day clock, with a huge dial bearing the names of each senior boy and girl, will be wound and placed in the window of the jewelry store. The lucky students on whose names the hands stop will be the recipients of the two watches.

Prizes which have been awarded annually for a number of years include the Cecil Athletic Medal, the Honorary Science Award, the Roness Scholarship Medal, the A. B. Parker Athletic Trophy, the Industrial Arts Award, and the Industrial Arts Improvement Award.

95 RECEIVE HP LETTERS

HP monograms—symbols of outstanding athletic achievement at High Point High were awarded to 95 students in an assembly program last Monday. Head coach Tony Simeon presided and the other departmental coaches participated in presenting the awards. The following students received letters:

Other Schools Included In Membership Drive

Allen Jay and Trinity high schools have been included in the membership drive for the proposed Youth Center. Junior high school will be entitled to a partial membership which will admit the members only at designated times.

These drives will extend through the summer, and while only several hundred dollars have been raised thus far, a sufficient amount to begin a center is expected before the end of vacation.

The first floor of the Arcade building is now an available site for the center; however the location is still under discussion.
