### Ears A-Wag

(By Alda Gurkin)

I was popping away at my chewing gum one day, unaware of the fact that I wasn't alone until my mother called to me. I asked her what she wanted and she replied by relating the following story:

"You know, Alda, that there is always something in the day's events that bring back memories of by-gone years. Your chewing gum has reminded me of an incident that happened when I was in school.

"I often wondered why a boy is sometimes given such large, red ears that his head reminds one of a taxicab with both doors wide open, and why he is given the power to wiggle those ears. What is more amusing than a pair of ears flapping in marked time to the tick of their owner's chewing gum?"

"One day while on class, I was very much disturbed by a boy who sat in front of me. He had such large ears that I had to sit away over to one side of the seat in order to see the blackboard.

"I was busy on a test; but when I heard someone laughing in a subdued tone, I looked up to see what it was all about.

"To my surprise and embarrassment, everyone seemed to be looking at me. I wondered if there was something odd about my wearing apparel, or if the bow in my hair had slipped out of place and let down my 'pig-tails'.

"Finally, I caught a glimpse of something red and turned my head to see what it was. There I found the cause for the hilarity. The boy in front of me was chewing gum with a rhythm to which his great left ear was keeping time, swinging like the open door of a taxicab.

### New Neighbors

(By Thelma Brown)

While I was sitting on the porch one day, I saw a bluebird perch on a fence nearby. He was beautiful with his bright feathers gleaming in the sunlight. Near the fence there was a bird-box that my brother had built in hopes that some bird would find it comfortable enough for a home.

For a short time, the bird sat where he had first perched; then he flew to the box, in pecked it thoroughly, and finally flew away. I thought he was gone, and that he would not return, so I turned my attention elsewhere.

But pretty soon, I heard another noise in the direction of the box. I looked up, and there again was Mr. Bluebird. He had brought his mate with him, and she went into the box. After they had looked about for a while, the male bird flew away while the female stayed to see that no other bird should bother their new home. Several minutes later, the male bird returning with some straw; and thereafter, both birds were busy making a new home.

Days passed and I did not notice the birds again until one day when I saw some sparrows sitting on the fence, watching the home of Mr. and Mrs. Bluebird. They were not content to sit at a distance, but had to move closer to get a better view. When they moved, Madam Bluebird hopped out through the doorway and landed at them. The sparrows hastily flew away, and I have not since seen them around the Bluebird home.

### Testing Woman's Curiosity

A short time ago a certain man decided to see just how strong a woman's curiosity was. He cut a small "personal" item from the newspaper and left the paper where his wife would be sure to find it. When he returned home the next evening he was surprised to find the domestic atmosphere hanging heavy with thunder clouds. Investigation revealed that his wife had borrowed a neighbors paper to see what he had clipped. He fumbled in his vest pocket for his clipping and was electrified to find on the opposite side from the "Personal" item, this headline: "Prominent Citizen Figures in Wild Party at Roadhouse. Due to Prominence of Participants, No Names Are Given at This Time." And now a certain man has no further interest in feminine curiosity.—Your Office House publication of the Detroit (Mich.) Macabees building.

#### THE CALL TO WORSHIP

"When morning glids the skies,  
 My heart awaking cries,  
 May Jesus Christ be praised!  
 Alike at work and pray'r,  
 To Jesus I repair;  
 May Jesus Christ be praised!"

"Were the whole realm of nature mine,  
 That were a present far too small;  
 Love so amazing, so divine,  
 Demands my soul, my life, my all."

#### DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Okla.  
 Homer W. Wood, publisher of the Porterville (California) Evening Recorder, says:

"More than one Captain of Industry has said that modern business has grown to a large extent into competitive advertising.

"In this day of enlightenment, people want to know and you must tell them.

"Advertising is not what it used to be, simply 'John Doe, Jeweler' or 'Jim Crow, Grocer.' It is a question of educating the people and telling them what you have to offer and the quality thereof.

"Time was when a bank was too dignified to advertise, but not so now. Bank ads are educational ads. Even the railroads are putting on their 'Dollar Day' sales on transportation.

"The future in advertising is as great as is the past. It develops as do all arts and sciences. The people want to be served, but they should first be told."

A new plan for a general purpose barn on the small farm has been developed at State College and is now available through the county farm agent or on application to David S. Weaver, agricultural engineer at the College.

Thirty-seven crop rotation plans have been adopted as demonstrations by Alamance County farmers this season.

### Use This Laxative made from plants

Theford's BLACK-DRAUGHT is made from plants that grow in the ground, like the garden vegetables you eat at every meal. NATURE has put into these plants an active medicine that stimulates the bowels to act—just as Nature put the materials that sustain your body into the vegetable foods you eat.

In Black-Draught you have a natural laxative, free from synthetic drugs. Its use does not make you have to depend on cathartic chemical drugs to get the bowels to act daily. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

## AFTER 40 bowel trouble

Constipation may very easily become chronic after forty. And any continued constipation at that time of life may bring attacks of piles and a host of other unpleasant disorders.

Watch your bowels at any age. Guard them with particular care after forty. Whenever they need any help, remember a doctor should know what is best for them.

"Dr. Caldwell's Syrup Pepsin" is a doctor's prescription for the bowels. Tested by 47 years' practice, it has been found thoroughly effective in relieving constipation and its ills for men, women and children of all ages. It has proven perfectly safe even for babies. Made from fresh laxative herbs, pure pepsin and other harmless ingredients, it cannot gripe; will not sicken you or weaken you; can be used without harm as often as your breath is bad, or when your tongue is coated; whenever a headachy, bilious, gassy condition warns of constipation.

Nearly every Durham County farmer will plant a garden this year with most of them making plans to keep the garden going the year around.
