A MESSAGE FROM MRS. SCHRODER

Dear boys and girls,
Elm Street School is now ending two of the best school months in six years. Each of you has helped to make this true. How?

1. By coming to school every day on time, except when you are sick.
2. By taking such good care of yourself at home and at school.
3. By doing good school work.
4. By taking care of your books, the school building and grounds.
5. By playing together so nicely on the school grounds.
6. By helping your teacher and schoolmates in every way.

Please bring some of your best work for the office and library bulletin boards.

With best wishes to you,
Mrs. Schroder

AMERICAN EDUCATION WEEK

Elm Street School will participate in the nation-wide observance of American Education Week, November 6-12.

The general theme of the observance this year will be "Education for Tomorrow's America". Special programs centered around this theme will be given throughout the week.

The faculty and students hope that every parent will visit them in their classrooms and also attend the special programs which will be presented during the week.

THE GOOD SHIP SAFETY

In our room we have a safety ship. It was made out of wood from a fir tree. Percy Payne, J.L. Bull, and Gerald Winfrey made it. The ship is two feet tall and two feet long and is painted red, green, black, and white. The sails are white with a red cross on them. The room that has no accidents for a month will have a safety pennant placed on the ship. We hope that every room will have a safety pennant on the Good Ship Safety at the end of every month.

Billy Minor (5th)

To the students: It was impossible, due to lack of space, to include in this issue all the fine things that were turned in to us. We wish to thank you for all the splendid work you contributed.
