

MIRROR MEDITATION

Recently we have read where the Archbishop of Canterbury and the Pope met for the first time since the separation of the churches. Also we have read where the leaders of several protestant denominations have met with the idea of Unity, as their purpose.

Somehow over a period of the ages religion itself has been in shackles. Some of its concepts, dogmas and teachings place mankind in bondage. It does not give him the strength, peace of mind and freedom of soul intended.

Because of tremendous organization there came laws of control. Theologians over a period of the ages created concepts that at the time were adequate and met the challenge of the era. As man's mind improved in all phases of knowledge, and of the sciences, instead of confidence there is despair, instead of hope, there is anxiety, in place of faith there is doubt.

It is small wonder communism is able to gain a foothold in a

Tips From New Bern's Post Office

What's Your Postal I. Q. ?

USE OF CELLULOSE TAPE TO SEAL REGISTERED LETTERS IS PROHIBITED

TRUE
FALSE

TRUE. Do not place paper or cellulose strips or wax or paper seals over the intersections of the flaps where the postmark impressions are made on registered letters. Self-sealing envelopes are not acceptable for registered mail.

Wrap packages must be sealed with mucilage or glue or with plain paper tape.

Envelopes or packages that appear to have been opened and pressions are made on registered letters. Self-sealing envelopes are not acceptable for registered mail.

world of frustration and uncertainty. It is unfortunate indeed that Christianity has not recognized before that a house divided can not stand. That which will survive are the basic truths of all. The divine laws of the Creator found in the mind and soul of every individual intuitively must be free. This prevents man from finding true happiness in any belief other than the spirit of God which is present within himself.

The masses of people throughout the world who are hungry and are living in degradation accept communism for its socialistic promise. A standard of living that is equal. All they see is what life offers to the living. They see so much disunity within religions, that through frustration and suspicion they easily turn to atheism.

It is high time the great minds

of religion get together on the basic truths. Primarily their aims are the same. To find man's reason on earth. From whence he came, and from here to where. There is but one God, one mind, one underlying cause. His entity is within every living soul. To develop its awareness within the individual man should be the purpose of all religions.

The individual who finds it discovers the tremendous spiritual power that is his for the using. It will give him purpose and heart to face the challenges of living. From it he can accomplish anything. Any country, government, rule or law will not prevent this type of mankind from raising his standard of existence.

His intuition, conscience and virtue will automatically eliminate the possibility of allowing enslavement or control from any type of government except that which allows him his creative freedoms.

There is no need for a universal religion, or the destruction of any. Just eliminate the prejudices and strive for a common cause, a spirit of love for one another, second only to our love for God. The supreme force behind his spirit can not stay locked within outmoded interpretations. With the tide of atheism, communism, and the unrest of enslaved peoples of this globe, what God is revealing to us today may be more important than what he said yesterday. Religious isolation is as dead as political isolation.

Only through and by the Spirit and Grace of God can man's destiny be fulfilled. There are no substitutes.

QUESTION: What is the best weight for killing hogs?

ANSWER: From 200 to 240 pounds, at five to six months old.

QUESTION: How long should I freeze seasoned sausage?

ANSWER: Not more than three months, or it will become off-flavored. Freeze only what you plan to use in about three months. You can freeze the rest of the meat ground, and season it when you take it out of the freezer.

QUESTION: How much should I put in my freezer?

ANSWER: Not more than 10 percent of the total capacity of the freezer in any one 24-hour period. If you have a lot more, get it quick-frozen at a locker or processing plant.

QUESTION: How much shelter do pigs need in bad weather?

ANSWER: Pigs need six square feet each of warm, dry shelter; hogs 10 square feet.

QUESTION: Is there any special length of time for keeping meat frozen?

ANSWER: Yes. At zero degrees, it's six months for pork, eight months for lamb, 12 months for beef.

QUESTION: How can I keep lice and mange off hogs?

ANSWER: The best treatment is lindane or BHC.

QUESTION: How much hay does the average Tar Heel dairy cow eat per day?

ANSWER: From 2½ to 4½ pounds per 100 pounds of body weight.

QUESTION: Why should I breed my dairy cows artificially?

ANSWER: You stand a better chance of getting a heifer that will do a good job of converting her feed into milk, for one thing. And then the heifers probably will keep inheriting greater capacity for consuming roughage.

QUESTION: How much milk should a 1,500-pound Holstein give per day?

ANSWER: It depends on many things, of course; but the hay feeding program is a vital factor. If she eats 65 pounds of hay per day (probably supplemented with feed concentrate), she'll give six gallons or more per day. If she eats only 37 pounds per day, she'll maintain her body weight; but she won't give but about three gallons per day.
