Saint's Sallies

Spring has sprung and now's the time when all St. Marie girls' thoughts turn to love, pins, charms, and for the lucky few—engagement rings.

On Easter Day, first and second Holt journeyed to Fuquay and Rocky Mount respectively. Ann McIntosh, May Eason, Ann Hobson, Lib Legette, Harlette Smithdeal, Jeanette Cross, Becky Walters, Doris Price, and Jane Copeland visited Dottie Yeamans. Blair Madison, Robby Ann Bruce, Anne Morris, Linda Vick, and Ann Ulright went to see Lee Newby and Bettie Ann Whitehurst.

Chee Davis seems to be quite interested in Davidson. She has made two trips there recently—once during Spring Vacation, and the next on April 18 for Spring Frolics.

Charlotte Hunt was in seventh heaven April 5th when her friend

came from Annapolis. Jenny Whitehurst, Nancy Rodwell, and Peggy Hamme played with rabbits at Kerr Lake on Easter.

The weekend of April 12 will be a busy one for St. Marie girls. Many belles are traveling to Charlotte for KA Old South. Those attending are Nancy Sullivan, Ease Pennington, Boo Baker, Sally Greene, Sis Young, Babe Middleton, Ann Hardin, Jackie Pope, and Carole Barber. Bette Lee, Sybil Mathis, and Judy Keller Thompson are attending a Sigma Nu cabin party.

Lou Johnson and Cinda Henderson will travel to U. V. A. for "Easter". They will dance to the music of Louis Armstrong.

Congratulations to Sally Greene for being charmed. Also to Virginia Vann, Virginia Gee, Connie Fisher, Shirley Smith, and Lucy Lynn Wooten for being pinned.

Happy Birthday

Easter Egg Hunt Given

The Granddaughter's Club went to Dix Hill on Saturday afternoon, April 5. An Easter Egg Hunt was given for the children in Cherry Building. Eggs were hidden and a prize given to the girl and boy who found the most eggs. Then ice cream and cookies were served to the 25 children. The granddaughters took refreshments inside for the children in the wards.

Books To Read

Two of the most important questions in the minds of modern man are: How does radiation affect human life? Does the testing of H-bombs harm humans today? *Radiation: What It is and How It Affects You* is a book which discusses these questions. It was written by Jack Schubert, an authority on radiation poisoning, and Ralph E. Lapp, a nuclear physicist. The book discusses such topics as how radiation affects living tissue, how radiation affects heredity, the overuse of radiation. This book explains radiation so that the ordinary person can understand it.

College Freshmen Speak Out by Agatha Townsend is a book in which college freshmen voice their opinion about their first year at college. The book gives an account of the story of the many adjustments that are necessary for the college freshman to make. One of the most interesting parts of the book is a chapter concerning the social problems of the freshman. This book should interest students, teachers, parents, and anyone who wishes to help make the road easier for students entering college.

Many Girls Travel To Florida

Florida tans have put those acquired on the sunporch to shame (no offense meant!) Several lucky girls spent their spring holidays on the sunny (?) beaches of Florida. Sun or no sun we envy these girls, n'est-ce pas? Among them were Elise Brice, Susie Baumgardner, Dot Johnson, Betsy Dent, Becky Webb, Ann Shepherd, and Robley Ann Bruce.

Rumor has it that several eligible bachelors enhanced the situation. The greater strophees of Florida are those hooked males who were unable to escape the charms of St. Mary's beauties. There seems to be a few added names to these lucky girls "males" lists. Also, one or two of these visitors to the Sunny (?) State imported their own main interests.

Now that we have all returned to "ye de institution," dreams of Florida are fading into horrors of school work, but "c'est la vie." "All good things must come to an end." Anyway, "Every Day it's a Gettin' Closer." (Summer, that is!)

Weenie says:

"I thought this was a people school"

"Where's my suitcase?"

"See if you can bring something from the dining room?"
