THE NEW AUDITORIUM

At last, Lexington High School has an Auditorium of which no one would be ashamed. It is a thing of which Mr. Cowles, the school board, and those interested in the High School have long been dreaming.

Anyone who has visited the school in the last four or five years knows how the students and faculty have been handicapped by the lack of an assembly room. In the past, Chapel, and other meetings have been held under the greatest difficulty. Several times, various classes and organizations have considered putting on entertainments, but their plans were thawarted because there was no place to present them.

Now, however, it is quite different. A large roomy Auditorium is ready for an assembly at any time. When the faculty wishes to reach the students at once, it can be done easily and with little confusion. Now, those who are interested may hold their entertainments in an Auditorium with a seating capacity of eleven hundred which has been thrown open to the community. The members of the school board, who made this building possible, have done something which they shall never regret and which will always be appreciated by the students of the High School.

TO THE STUDENTS OF L. H. S

Dear fellow Students:

Are you interested in THE LEX-HIPEP? Do you want it to be one of the best high school papers in the state? How absurd: of course you Well I am going to how you can help make it so. Everytime you hear anything you think will he of interest to the students of Lexington High School, tell some member of the editorial staff about it. If anything of special interest happens to your class, if any distinguished visitor come, or you get any good jokes on your friends etc., be sure to report them for publication in the LEXHI-Do you have enough interest in the welfare of your school paper to give a few moments of your time to securing subscriptions? It will be impossible to publish it without the co-operation of every student.

The staff, both editorial and business, are splendid ones, but editors are only human, and regardless of how capable they are, they can not be everywhere all the time, or do all the work. The responsibility of THE LEXHIPEP'S welfare rests upon the shoulders of every L. H. S. student. Let us show the true blue and orange

spirit and make our school paper the best one in North Carolina.

Try to be the best reporter in your class, with the neatest articles on the best subjects, and get them in first, but remember—

"If at first you don't succeed in having your article printed.

Remember, dear, there are other ways besides just up and quitting.

Remember your friends, your paper and that your school has a rep.

Forget your reward, but look up your work in the next issue of THE LEXHIPEP"

Yours For a Success,

DWIGHT JOHNSON.

GRAND IDEA

Some pupil's idea of an ideal high school seems to be—

A four hour day.

An hour and half for dinner.

Fifteen minutes between classes.

One page lessons.

Two units for years work.

Chewing gum and candy provided by city.

Teachers who are expected to know everything but teach nothing.

Class periods turned into general discussion.

Holidays on birthdays.

To do nothing and get credit for everything.
