

**LEXINGTON III CAFETERIA.**

Why do you see so many people coming up from the domestic science lunch room with happy smiles on their faces? Because they have just eaten a good dinner, prepared by the girls of Miss Ware's classes. Almost any time between twelve o'clock and twelve forty-five you can hear the delightful music of the soup song from this direction.

For several years the need of a High School lunch room has been felt. Especially since L. H. S. was made a consolidated school and so many people come too far to go home for lunch.

This year Miss Ware and the girls of her classes have decided to try it out. The food is well prepared and cheaper than can be bought elsewhere.

To make this plan a success everyone will have to give their support. You students who usually go home to lunch, why not try eating in the Cafeteria once in a while. Perhaps after awhile it can be put on a larger scale and a greater variety of goods can be served.

Every day in the lunch room, soup, sandwiches, candy, peanuts, milk and desserts are sold.

Come on, everybody; do your part. If there is one thing that Democrats, Republicans, teachers, students, foolish and wise agree upon, it is that everybody likes to eat.

**ALPHA ZETA LITERARY SOCIETY MEETS**

The boys Literary Society had its second meeting Thursday, November 6th. The meeting opened with the roll call, and minutes of last meeting. The naming committee presented several names for the society but "Alpha Zeta Literary Society" was chosen. The program committee had planned a fine program. Calvin Williams and Joe Slink won the affirmative side of the query, "Resolved, That Lexington should complete four ward schools within the next five years," over Elmo Huffman and Allen Myers, the negative upholders. Humorous selections were given by Fred Wilson. There was also an extemporaneous debate: "Resolved, That a cow is more useful than a mule," which completed the program. The meeting was adjourned by president McCulloch.

Oh yes, the human touch is there  
—and it is your own touch.

You are clerk and customer, both, at Piggly Wiggly.

You select what you want. You can hurry or you can take your time.

No one hurries you; no one slights your order, however small it may be.

The human touch—Yes indeed! It is the most human way in the world to shop—the Piggly Wiggly way.

You handle your purchases—all neatly wrapped—kept fresh for you on clean shelves and in the ice-cold refrigerator.

Every part of Piggly Wiggly is ready for inspection at all times.
