

**OUR HIGH SCHOOL**

Although there has been much complaint that our high school students are so hard pressed this year, we ought to pause for a moment and think of the advantages the students enjoy this year over former ones, even those of last year. Then we would feel proud that we have such a school to attend.

First, we have a large new auditorium, which is one of the largest and best equipped in the State. This is a building which all of the former students dreamed of and could see in the future, but we are at last the fortunate ones.

Our laboratories and domestic science rooms are much better equipped this year. Much helpful study and progress has been made in the laboratory with the new instruments; and by the efficiency of the domestic science classes, we are able to have a cafeteria where hot lunches can be secured everyday.

The gymnasium is finished and has been put into use. The basket-ball team has been using it for sometime and is delighted to have such an excellent place in which to practice and play their games. We hope that sometime in the near future, gymnastic exercises for all of the high school will be introduced.

Then the school is represented by the LEXHIPEP. We did not have a school paper last year, and this year we are able to see how important one is to a high school. It really shows what a high school is made of. That is why the LEXHIPEP is such a good paper.

The library is better equipped and very helpful. It is run in such a manner that every possible class has a period there at least once a day to prepare their reference work. The order is good and the library has proved very beneficial.

The faculty this year is also of the best, and although more work is required this year than before, it raises the standard of our high school and therefore we ought to accomplish as much as possible. We are fortunate in having such a talented music teacher as Miss Myers, and all of the high school has been placed on the accredited list. In view of all these things, we ought to be glad of the opportunity to come to Lexington High School.
