

**PROSPECTS FOR BOYS' TENNIS**

The first signs of a boys' tennis team were noticed when a meeting was held, in which Dick Waiser was elected manager without a dissenting vote. It was also decided upon to have some form of an elimination series in the high school so that the representatives might be selected in a democratic manner.

This sport is only three years old in Lexington, but nevertheless some teams have been put out that ranked well with the other schools in the state, making always a creditable record of which no one who is interested in the teams is ashamed.

As for material, it is not just floating around this year. However, two veteran players are back; Ham Hargrave, a semi-finalist at the state meet, and a finalist at Greensboro, and Chester Dorsett, who has made an exceptionally good record in his last two years of playing. It may be stated that Dorsett was kept out of much playing last year on account of the mumps, but he is in fine form now and should be a bright light this year.

There is plenty of room for new recruits and these will have an equal chance with last year's players. We must have a good squad to begin with, if we hope to play a schedule such as has been played in the past years.

Letters will be given, and all who have any ability please start practicing and get in good shape for the series. This date will be announced later.

Charlotte, Greensboro, Oak Ridge, High Point, and Burlington were played last year, and we expect to have them again this year.

**NOTICE**

The I-ha-ha Campfire Circle will serve supper on Saturday, March 21st at the Methodist Hut. Hours from 5:30 to 7:30.

Have you been noticing the exchanges in the library? The Lexhipep receives from fifty other schools, and sometimes when you are in the library, with nothing else to do, read what other schools are doing.

Every boy and girl in school should go out for either track or tennis.

**You Profit From Your Connection Here**

in proportion to the extent that you use our services and facilities. Through 38 years of helpfulness to Lexington and Davidson County, THE BANK OF LEXINGTON has acquired an unexcelled knowledge of local conditions, enabling it to render personal financial service to every patron.

Whatever your banking or trust needs, whatever business problems you may encounter, you will find this institution's ready help and counsel at your command.
