WANTS GIRLS TENNIS TEAM

Now since track is over, how about a girl's tennis team? We know we have the best boys' team in the state so why shouldn't we have a good girls team. Come on, some of you girls who have never gone out for any sport in your High School career, can't you give up a little bit of your time for your school?

THE LINCOLN ESSAY MEDAL

It has been several months since the Lincoln essays were written and up to this time no announcement of the winner has been made. These papers have lain in the principal's office ever since they were turned in and dust is probably collecting on them now. This delay in judging the papers seems inexcusable although there may be some very good reason for it. I think, and I voice the opinion of many others, that it is time to do something about this, unless this medal is meant to be a commencement gift to some one. How about a little action. We need it.

A STUDENT.

"ONE CRYING NEED"

Since our track team did not score a single point in the state meet it is high time that the students and teachers wake up to the crying need of a good track team. Also, the townspeople should cooperate in this project. It will be necessary, in order to have this winning team, for our boys to secure track shoes somewhere. The need of them was demonstrated especially at Chapel Hill because our boys were handicapped. L. H. S. should put out an effective track team next year and the sooner we realize this fact and get to work with the determination and vim necessary to do this, the better off we will be.

'Tis such a pity that some of our boys were arrested at Chapel Hill. "Whoopee"! Mr. Cowles will again pilot our ship of study.

"LITERARY CUP PRESENTED"

Last Wednesday at chapel the Literary cup was presented and great was the applause rendered the winners who were asked to stand up in front. If the students showed as much "pep" in going out for school activities we could win just about all of the cups given to the high schools in North Carolina.

One cup is worth more toward stimulating school spirit than forty lectures or articles in the Lexhipep.

BONEHEAD SALLIES

(This is the newest out—and worst)

The Lexhipep—published every two weeks or thereabouts. Usually thereabouts. The High School couldn't get over the shock of a Lexhipep on time.

This paper has ceased publishing articles of a slandering disposition. Since then, things have been as dead as we feel these days.

Washington looks good, but it would look better if I had my thirty plunks saved up. I'll go broke a long time.

This is known as the B. S. column, and lives up to its name.

A period in the library these days is like the home of the deity.

The last issue of the Lexhipep will be our Senior issue, with a white cover and green lettering. (Green and White are Senior colors).

I "hain't got nothing" more to say, in other words the fountain of my expostulations is dried up.

B. S. SPECIAL

"MATHEMATICS"

We are especially proud of our article in this issue on Pythagoras because it is the first of its kind in our paper. Then, too, it reminds us of the old Greek civilization before the days of Plato and Socrates, and causes us to reflect upon the influence Pythagoras had on Greek cosmogony. We hope that many similar articles may be received in the future not only from the mathematics department but from all of the other departments as well.
